Ironing Day Company

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A grey Sunday of ironing with the dog keeping company from her bed across the room: the board comes out, the steam hisses, she steals a sock from the basket, sniffs the warm folded pile, and gets a belly rub once the iron is put away.

TIMELINE

0-5s	Board comes out
5-10s	Steam hiss
10-15s	Sock thief
15-20s	Warm folded pile
20-25s	Belly rub break

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. 0-5s (Board comes out): Living room on a grey Sunday afternoon, flat window daylight, laminate floor, a laundry basket on the sofa. The owner unfolds a squeaky ironing board near the window. The dog lifts her head from her grey bed in the far corner at the creak, watches for a second, then lays her chin back down on the edge. Sound: ironing board creaking and clicking open, rain tapping lightly on the window. 5-10s (Steam hiss): Same living room, soft overcast daylight from the window. The owner's hand presses the iron onto a blue shirt and a small puff of steam hisses up. Across the room, safely away on her grey cushion bed, the dog flicks her ears toward the sound and tilts her head slightly, still lying down. Sound: steam hiss, the iron thumping on the board, owner says "just steam, it's okay". 10-15s (Sock thief): Living room, grey afternoon window light, a second laundry basket on the floor beside the sofa, far from the ironing board. The dog gets up, walks to the basket, sniffs, and carefully pulls out a single rolled grey sock, then carries it back to her bed with her tail wagging and lies down with it. Sound: soft fabric rustle, tags jingling, owner laughing "hey, that's mine". 15-20s (Warm folded pile): Living room in grey afternoon daylight, laminate floor, the iron set upright and switched off. A neat pile of folded shirts sits on the sofa cushion. The dog stands beside the sofa and pushes her nose gently into the warm pile, sniffing, while the owner's hand moves her head away softly. Sound: fabric rustling, deep sniffing, owner says "nope, those are clean". 20-25s (Belly rub break): Living room, late afternoon, window light fading to grey, ironing board folded against the wall and the iron unplugged on a high shelf. The owner sits on the floor next to the dog's bed and the dog rolls onto her back for a belly rub, front paws curled and her back leg twitching. Sound: quiet room, rain on the window, the dog's happy grumble.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Board comes out

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
