Making Breakfast Pancakes

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A sunny Saturday pancake breakfast where the pancakes are for people only: batter mixing, a crooked flip, her own kibble, a polite chin on the table, and a plain dog biscuit as her treat.

TIMELINE

0-5s	Mixing the batter
5-10s	Crooked flip
10-15s	Her own breakfast
15-20s	Chin on the table
20-25s	Biscuit instead

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. 0-5s (Mixing the batter): Bright kitchen on a Saturday morning, sunlight through the window over the sink, white tile counters, beige tile floor. The owner's hand whisks batter in a big glass bowl. The dog lies on a mat by the back door, well away from the stove, her nose working and her eyes locked on the bowl. Sound: whisk tapping the glass bowl, birds outside, radio playing quietly in another room. 5-10s (Crooked flip): Same kitchen, morning sunlight, a frying pan on the stove with a pancake bubbling. The owner flips it with a spatula and it lands a little crooked, half folded. In the background the dog sits on her mat by the back door, licking her lips and watching closely, ears turned toward the stove. Sound: sizzling pan, spatula scrape, owner says "well, that one's mine". 10-15s (Her own breakfast): Kitchen in the morning, sunlight lying across the beige tile floor. The owner's hand pours a scoop of her regular dry kibble into a steel bowl by the fridge. The dog trots over from her mat and digs in immediately, crunching loudly, tail moving side to side as she eats. Sound: kibble rattling into the bowl, loud crunching, tag clinking on the bowl. 15-20s (Chin on the table): Small kitchen table by the window, morning sunlight, a plate of stacked pancakes with a pat of butter. The dog rests her chin on the edge of the table next to the plate, nose twitching, not touching anything. The owner's hand slides the plate away and points down to the floor. Sound: fork on the plate, sniffing, owner says "these are people pancakes". 20-25s (Biscuit instead): Kitchen table in morning sunlight, the empty pancake plate pushed aside. The owner's hand holds out a plain bone-shaped dog biscuit low near the floor. The dog sits nicely, takes it gently, then lies down under the table and crunches it between her front paws on the beige tiles. Sound: crunching, crumbs on the tiles, owner says "good girl".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Mixing the batter

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. Bright kitchen on a Saturday morning, sunlight through the window over the sink, white tile counters, beige tile floor. The owner's hand whisks batter in a big glass bowl. The dog lies on a mat by the back door, well away from the stove, her nose working and her eyes locked on the bowl. Sound: whisk tapping the glass bowl, birds outside, radio playing quietly in another room.

Clip 2 | 5-10s | Crooked flip

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
