Changing the Bed Sheets

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Changing the sheets with a helper who makes it twice as long: she lies on the old pile, watches the fitted sheet, gets covered by the flat sheet, sprawls on the half-made bed, and naps on the fresh blanket.

TIMELINE

0-5s	Old sheets off
5-10s	Fitted sheet
10-15s	Under the sheet
15-20s	Refuses to move
20-25s	Fresh bed nap

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. 0-5s (Old sheets off): Bedroom, mid-morning, white daylight through thin curtains, wooden floor, a laundry basket by the door. The owner's hands strip the old blue sheet off the mattress and toss it on the floor. The dog walks over and lies down right on the crumpled pile, curling up with her nose tucked into it. Sound: sheets rustling, the mattress creaking, owner sighing "of course". 5-10s (Fitted sheet): Same bedroom in soft morning daylight through thin curtains, wooden floor. The owner stretches a fresh white fitted sheet over the corner of the bare mattress, tugging it into place. The dog stands beside the bed watching, then sneezes and gives her head a shake, ears flapping, tags rattling. Sound: elastic snapping, sneeze, tags rattling. 10-15s (Under the sheet): Bedroom, mid-morning, curtains letting in pale daylight. The owner flaps a clean white flat sheet up into the air over the bed. The dog jumps up onto the mattress just as it floats down, and the sheet settles over her, leaving only her black nose and one ear poking out the side. Sound: sheet whooshing, mattress bounce, owner laughing "where did you go?". 15-20s (Refuses to move): Bedroom in morning daylight, wooden floor, laundry basket by the door. The owner pushes a pillow into a grey pillowcase while the dog lies across the middle of the half-made bed, rolling onto her side and refusing to move, her tail thumping slowly on the white sheet. Sound: tail thumping on the mattress, pillowcase rustling, owner says "you're in the way". 20-25s (Fresh bed nap): Bedroom, late morning, daylight across the neatly made bed with a grey blanket on top. The owner pats the edge of the bed and the dog hops up, circles twice, and flops down on the fresh blanket with a deep sigh, eyes closing, one paw hanging over the edge. Sound: mattress creak, big sigh, quiet room.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Old sheets off

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. Bedroom, mid-morning, white daylight through thin curtains, wooden floor, a laundry basket by the door. The owner's hands strip the old blue sheet off the mattress and toss it on the floor. The dog walks over and lies down right on the crumpled pile, curling up with her nose tucked into it. Sound: sheets rustling, the mattress creaking, owner sighing "of course".

Clip 2 | 5-10s | Fitted sheet

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
