Watering the Houseplants

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Weekly plant watering with the dog checking every pot: filling the can, a spider plant, a Boston fern, licking up spilled drops, and a nap in the sunny spot by the plant shelf.

TIMELINE

0-5s	Filling the can
5-10s	Spider plant check
10-15s	Boston fern sniff
15-20s	Spilled drops
20-25s	Sunny spot nap

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. 0-5s (Filling the can): Kitchen sink in the late afternoon, warm window daylight, a couple of small pots on the windowsill. The owner fills a green plastic watering can under the tap. The dog stands beside the owner's legs on the beige tile floor, head tilted at the sound of the running water, ears perked up. Sound: tap running, water filling the can, owner says "plant day". 5-10s (Spider plant check): Living room, afternoon daylight through a big window, a few pots on a low wooden shelf including a leafy spider plant. The owner tips the watering can over the spider plant. The dog walks up and sniffs the long striped leaves, her nose bumping one so it bounces back, then she steps away. Sound: water trickling into soil, sniffing, leaves rustling. 10-15s (Boston fern sniff): Same living room, soft afternoon window light, light oak floor. A fluffy Boston fern sits on a short plant stand at the dog's head height. Water drips from the bottom of the pot into a saucer, and the dog leans in to sniff the wet saucer, then sneezes and backs away. Sound: dripping water, a loud sneeze, owner chuckling. 15-20s (Spilled drops): Living room corner, afternoon daylight, light oak floor next to the plant shelf. A few drops of plain water spill from the spout of the watering can onto the floor. The dog licks the drops up quickly, then looks up at the camera with her tongue still out, tail wagging. Sound: quick licking, tags jingling, owner says "thanks for cleaning up". 20-25s (Sunny spot nap): Living room, late afternoon, a patch of window sunlight on the rug next to the plant shelf. The dog lies stretched out in the warm patch among the potted spider plant and fern, eyes closed, while the owner's hand sets the empty watering can down on the floor beside her. Sound: soft breathing, a bird outside the window, can set down on the floor.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Filling the can

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. Kitchen sink in the late afternoon, warm window daylight, a couple of small pots on the windowsill. The owner fills a green plastic watering can under the tap. The dog stands beside the owner's legs on the beige tile floor, head tilted at the sound of the running water, ears perked up. Sound: tap running, water filling the can, owner says "plant day".

Clip 2 | 5-10s | Spider plant check

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
