Mopping the Floor

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A morning of mopping with the dog parked on her blanket out of the way: filling the bucket, moving her to the hallway, watching the wet floor, paw prints on almost-dry tiles, and a flop on the clean floor.

TIMELINE

0-5s	Filling the bucket
5-10s	Moved to the hallway
10-15s	Watching the wet floor
15-20s	Paw prints
20-25s	Flop on clean tiles

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. 0-5s (Filling the bucket): Laundry room, morning, flat daylight from a small window, white tile floor. The owner's hand fills a yellow mop bucket with warm water from the tap, a closed bottle of floor cleaner up on a high shelf. The dog watches from her bed in the hallway outside the door, head resting on her paws. Sound: water drumming into the bucket, the dog sighing. 5-10s (Moved to the hallway): Kitchen, morning daylight through the window, beige tile floor. The owner points to a folded blanket in the hallway and the dog walks over, sits, then lies down on it, looking back into the kitchen as the owner starts pushing a wet grey mop across the tiles. Sound: mop sloshing, owner says "stay on your blanket", tags jingling. 10-15s (Watching the wet floor): Kitchen in morning daylight, the beige tiles shiny and wet. The dog stays on her blanket at the edge of the hallway, front paws right at the line where the dry floor ends, nose stretched forward, watching the mop swish back and forth across the room. Sound: mop swishing, bucket wheels squeaking, a quiet whine. 15-20s (Paw prints): Kitchen, late morning daylight, the floor almost dry. The dog walks across the kitchen to her water bowl, leaving faint paw prints on the slightly damp beige tiles. The camera points down at the little marks for a moment, then up at the dog drinking. Sound: soft paw steps, lapping water, owner groaning "really?". 20-25s (Flop on clean tiles): Kitchen, late morning, clean dry beige tiles, window daylight. The bucket and mop are put away. The dog lies stretched flat on the cool clean floor in the middle of the kitchen, belly down with her back legs splayed out behind her, and lets out a long groan. Sound: long groan, the fridge humming, distant traffic.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Filling the bucket

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. Laundry room, morning, flat daylight from a small window, white tile floor. The owner's hand fills a yellow mop bucket with warm water from the tap, a closed bottle of floor cleaner up on a high shelf. The dog watches from her bed in the hallway outside the door, head resting on her paws. Sound: water drumming into the bucket, the dog sighing.

Clip 2 | 5-10s | Moved to the hallway

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
