Changing a Lightbulb

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A dead hallway bulb turns into a small evening project: the switch that does nothing, sniffing the new bulb box, the stepladder while she waits on her bed, light back on, and a big stretch.

TIMELINE

0-5s	Dead bulb
5-10s	Sniffing the new bulb
10-15s	Ladder time
15-20s	Light comes on
20-25s	Big stretch

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. 0-5s (Dead bulb): Hallway in the evening, the ceiling bulb dead, only light from the kitchen doorway and a small table lamp. The owner's hand flicks the wall switch twice and nothing happens. The dog lies on her bed at the end of the hallway and lifts her head at the clicking. Sound: switch clicking twice, owner muttering "great", the dog's tag jingling. 5-10s (Sniffing the new bulb): Kitchen in the evening, warm light over the counter, beige tile floor. The owner holds a plain white lightbulb box low, and the dog walks over and sniffs it carefully, nose twitching along the edges, then loses interest, sneezes and turns away toward the hallway. Sound: cardboard tapping, sniffing, a sneeze. 10-15s (Ladder time): Dim hallway in the evening, lamp light from a side table. The owner unfolds a small aluminum stepladder under the ceiling light. The dog walks closer, the owner points and says bed, and she goes back to her bed a few metres away and lies down, watching. Sound: ladder clanking open, owner says "bed, please", soft paw steps. 15-20s (Light comes on): Hallway in the evening. The ceiling light suddenly switches on, filling the hallway with ordinary warm light. The dog, still lying on her bed with the stepladder a safe distance away, blinks and squints up at the ceiling, then puts her head back down on her paws. Sound: switch click, owner says "there we go", a sigh from the dog. 20-25s (Big stretch): Hallway in the evening, warm ceiling light now working, wooden floor. The owner folds the stepladder and leans it against the wall. The dog stands up, stretches with her front legs forward and her rear in the air, then trots over to sniff the rubber feet of the ladder. Sound: ladder folding, a squeaky yawn, claws on the wooden floor.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Dead bulb

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. Hallway in the evening, the ceiling bulb dead, only light from the kitchen doorway and a small table lamp. The owner's hand flicks the wall switch twice and nothing happens. The dog lies on her bed at the end of the hallway and lifts her head at the clicking. Sound: switch clicking twice, owner muttering "great", the dog's tag jingling.

Clip 2 | 5-10s | Sniffing the new bulb

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
