MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. 0-5s (Leaf sniffing): Front yard, cool autumn afternoon, overcast grey sky, the lawn covered in yellow and brown leaves. The owner rakes on one side of the lawn while the dog sniffs through untouched leaves on the far side, nose down, kicking them up with every step. Sound: rake scraping, leaves crunching, a crow calling. 5-10s (Pile pounce): Same front yard, grey autumn daylight, the rake leaning against a tree. A big pile of raked leaves sits in the middle of the lawn. The dog pounces into the pile with her front paws, scattering leaves everywhere, then stands in the middle with a leaf stuck to her ear. Sound: leaves crunching and scattering, owner groaning "noooo" then laughing. 10-15s (Watching from the porch): Front porch steps, autumn afternoon, flat grey light. The dog lies on a doormat at the top of the steps, away from the rake, watching the owner rebuild the leaf pile on the lawn below, her ears flicking at each scrape of the tines. Sound: rake scraping, wind in the trees, a car passing. 15-20s (Yard bag sniff): Front yard, grey autumn light. The owner holds open a big brown paper yard bag and stuffs leaves in with gloved hands. The dog walks over and sticks her head into the top of the bag, sniffing deeply, then pulls back with dry leaf bits stuck to her nose. Sound: paper bag crinkling, deep sniffing, a snort. 20-25s (Leaf picking): Front porch, late afternoon, cloudy autumn light, the full yard bags lined up by the steps. The dog sits on the porch while the owner's hand picks dry leaf bits out of her black coat one by one. She leans into the owner's legs, eyes half closed. Sound: leaves crackling, quiet street, a contented sigh.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
