Sweeping the Porch

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

An early morning porch sweep with quiet company: she follows the broom outside, lies by the railing, checks a leaf on the path, watches the street, and shares a coffee break on the step.

TIMELINE

0-5s	Out with the broom
5-10s	Watching the bristles
10-15s	Leaf on the path
15-20s	Street watch
20-25s	Coffee break

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. 0-5s (Out with the broom): Front porch, early morning, cool pale daylight, grey painted floorboards, a doormat and two empty clay pots. The owner steps out holding a straw broom. The dog follows out the front door, stops on the doormat, and stretches with a big yawn. Sound: screen door creaking, a squeaky yawn, birds chirping. 5-10s (Watching the bristles): Same porch in early morning light, grey floorboards. The owner sweeps dust and a few leaves toward the steps. The dog lies down at the far end of the porch by the railing, away from the broom, chin on her paws, watching the bristles scratch across the boards. Sound: broom scratching on wood, birds, a sprinkler down the street. 10-15s (Leaf on the path): Front porch steps, morning daylight, the broom pushing a dry leaf off the top step. The leaf blows down onto the concrete front path and the dog trots down the steps after it, sniffs it carefully, then leaves it there and looks back up at the owner. Sound: leaf skittering on concrete, paws on the steps, owner says "got it?". 15-20s (Street watch): Front porch steps, morning daylight, a quiet street with parked cars beyond the small lawn. The dog sits on the top step, ears up, watching a jogger pass on the far sidewalk, while the owner keeps sweeping the other side of the porch behind her. Sound: distant footsteps, broom swishing, a low quiet woof. 20-25s (Coffee break): Front porch, morning, pale sunlight now reaching the boards, the broom leaning against the wall. The owner sits on the top step with a mug, and the dog sits beside them, leaning her shoulder into the owner's side as they both look out at the street. Sound: mug set down on wood, birds, owner says "nice job, partner".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
