Cleaning Out the Car

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Cleaning the dog-hair car on a grey Sunday: she jumps in expecting a ride, the fur gets brushed up, an old ball turns up under the seat, she chews it while the vacuum runs, and refurs the clean seat in seconds.

TIMELINE

0-5s	Ready for a ride
5-10s	Fur everywhere
10-15s	Lost ball found
15-20s	Vacuum time
20-25s	Clean seat, new fur

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. 0-5s (Ready for a ride): Driveway, Sunday afternoon, overcast daylight, a grey hatchback with all its doors open. The dog jumps straight onto the back seat as soon as the owner opens the rear door and sits there, tail sweeping the seat, looking out at the owner and waiting. Sound: car door opening, seat creaking, owner laughing "we're not going anywhere". 5-10s (Fur everywhere): Back seat of the car in flat daylight, dark fabric seats covered in black dog hair. The owner's hand runs a rubber brush across the seat, rolling up a big clump of fur. The dog, now standing outside the open door on the driveway, sniffs the clump curiously. Sound: brush rasping on fabric, sniffing, owner says "this is all you". 10-15s (Lost ball found): Car interior, overcast afternoon, the owner's hand reaching under the passenger seat. The hand pulls out an old flattened tennis ball. The dog, waiting on the driveway beside the open door, perks up instantly, tail wagging hard, and takes it gently from the hand. Sound: owner says "look what I found", excited panting. 15-20s (Vacuum time): Driveway, grey afternoon light. The owner vacuums the back seat with a small handheld vacuum. The dog lies on the patchy grass at the edge of the driveway a few metres away, chewing her old tennis ball between her paws and ignoring the noise. Sound: vacuum whirring, ball squishing, a neighbor's dog barking far away. 20-25s (Clean seat, new fur): Driveway, late afternoon, overcast light. The back seat is clean now, with a folded grey blanket laid on it. The owner pats the seat and the dog hops in, turns once, and lies down on the blanket, already leaving a few black hairs on it. Sound: seat creak, a happy sigh, owner says "and it's furry again".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Ready for a ride

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. Driveway, Sunday afternoon, overcast daylight, a grey hatchback with all its doors open. The dog jumps straight onto the back seat as soon as the owner opens the rear door and sits there, tail sweeping the seat, looking out at the owner and waiting. Sound: car door opening, seat creaking, owner laughing "we're not going anywhere".

Clip 2 | 5-10s | Fur everywhere

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
