Wrapping a Present

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Wrapping a gift on a winter evening with a dog who sits on the paper: sniffing the roll, lying on it, watching the scissors from the rug, reacting to the tape, and guarding the finished present.

TIMELINE

0-5s	The paper roll
5-10s	Lying on the paper
10-15s	Scissors sound
15-20s	Tape surprise
20-25s	Guarding the gift

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. 0-5s (The paper roll): Living room floor on a winter evening, warm table lamp light, a roll of plain red wrapping paper and a plain box on the carpet. The owner unrolls the paper with a loud crinkle. The dog gets off the sofa, walks over and sniffs the end of the roll. Sound: paper crinkling, a TV murmuring in another room, sniffing. 5-10s (Lying on the paper): Same living room in warm lamp light, beige carpet. The dog lies down right on top of the unrolled red paper, crinkling it. The owner's hand gently slides the paper out from under her while she stays lying down, rolling onto her side with her legs out. Sound: crinkling paper, owner laughing "I need that". 10-15s (Scissors sound): Living room in the evening, warm lamp light. The owner cuts the paper with scissors up on the coffee table. The dog sits a few feet back on the rug, away from the scissors, head tilted at the snipping sound, eyes on the paper. Sound: scissors snipping, paper rustling, the clock ticking. 15-20s (Tape surprise): Living room, warm lamp light, a half-wrapped box on the coffee table. A strip of clear tape rips off the roll with a loud screech. The dog's ears shoot straight up and she tilts her head the other way, then sneezes and lies down on the rug. Sound: tape screech, a sneeze, owner chuckling. 20-25s (Guarding the gift): Living room in evening lamp light. The finished present sits on the carpet with a plain gold bow on top. The dog walks up, sniffs the bow carefully without biting it, and lies down right next to the present, chin on her paws, as if guarding it. Sound: soft sniff, a sigh, owner says "don't tell anyone".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
