Package Day

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A delivery day that turns out to be for her: the doorbell, a plain box on the step, carrying it in, opening it to find a new blanket, and her first nap on it.

TIMELINE

0-5s	Doorbell
5-10s	Box on the step
10-15s	Carrying it in
15-20s	Opening the box
20-25s	New blanket nap

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. 0-5s (Doorbell): Front hallway, midday, daylight from a small window beside the door, shoes lined up on a mat. The doorbell rings and the dog trots to the door, stands with her ears up and gives one deep bark, tail wagging, then looks back at the camera. Sound: doorbell, one deep bark, claws on the hallway floor. 5-10s (Box on the step): Front doorstep, sunny midday, brick steps and a worn doormat. The owner opens the door and a plain brown cardboard box with no labels sits on the mat. The dog pokes her head past the owner's legs and sniffs the box thoroughly, nose working fast. Sound: door opening, street noise, fast sniffing. 10-15s (Carrying it in): Hallway, midday daylight from the small window. The owner carries the plain brown box in and sets it on the floor. The dog follows closely with her nose on the box, then sniffs all four sides while circling it, her tail going steadily. Sound: box set down, footsteps, owner says "okay, okay, let me open it". 15-20s (Opening the box): Living room floor, midday window light, beige carpet. The owner's hands pull open the box flaps and lift out a soft new grey dog blanket. The dog stuffs her head into the empty box, sniffing, and pulls out a crumpled sheet of brown packing paper. Sound: cardboard flaps, paper crinkling, owner laughing "it's for you". 20-25s (New blanket nap): Living room, early afternoon daylight, the new grey blanket spread on the dog's bed. The dog steps onto it, circles twice, scratches at it with her front paws, and flops down with her nose buried in the soft fabric, letting out a long, happy breath. Sound: fabric rustling, a big contented sigh.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Doorbell

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. Front hallway, midday, daylight from a small window beside the door, shoes lined up on a mat. The doorbell rings and the dog trots to the door, stands with her ears up and gives one deep bark, tail wagging, then looks back at the camera. Sound: doorbell, one deep bark, claws on the hallway floor.

Clip 2 | 5-10s | Box on the step

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
