MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. 0-5s (Mixing the dough): Kitchen on a rainy afternoon, grey window light and the counter lamp on, a bowl of rolled oats, a can of plain pumpkin and an unlabeled jar of xylitol-free peanut butter on the counter. The owner spoons peanut butter into the bowl. The dog sits on her mat by the fridge, nose lifted, sniffing hard. Sound: rain on the window, spoon scraping the jar, sniffing. 5-10s (Rolling it out): Same kitchen, rainy afternoon, counter lamp on. The owner rolls out orange-brown dough with a wooden rolling pin on a floured counter. The dog stands with all four paws on the tile floor, staring up at the edge of the counter and licking her lips. Sound: rolling pin thudding, rain, a hopeful whine. 10-15s (Bone shapes): Kitchen counter, grey rainy daylight from the window. The owner presses a bone-shaped cutter into the dough and lifts out a little biscuit. A tiny scrap of dough falls to the floor and the dog cleans it up instantly, then looks straight up for more. Sound: cutter tapping, a quick lick, owner says "that's quality control". 15-20s (Oven watch): Kitchen on a rainy afternoon, the oven light on. The tray of bone-shaped biscuits slides into the oven. The dog lies on her mat on the other side of the kitchen, away from the hot oven, her nose pointed at the oven door and sniffing the warm air. Sound: oven door closing, timer ticking, rain. 20-25s (Taste test): Kitchen, late afternoon, grey light outside, the biscuits cooling on a wire rack. The owner breaks a cooled biscuit and holds a piece low. The dog sits, takes it gently, crunches loudly, and immediately sits again for another, tail sweeping the floor. Sound: loud crunching, tail swishing on tile, owner says "five stars?".

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
