Meal Prep Sunday

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Sunday meal prep with a hopeful helper: unpacking groceries, chopping while she waits on her mat, a raw carrot stick for her, filling containers, and staring at the closed fridge.

TIMELINE

0-5s	Unpacking groceries
5-10s	Chopping
10-15s	Carrot stick
15-20s	Filling containers
20-25s	Fridge stare

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. 0-5s (Unpacking groceries): Kitchen, Sunday late morning, bright overcast daylight, reusable shopping bags on the counter. The owner unpacks carrots, broccoli and a pack of chicken breasts onto the counter. The dog stands beside the counter, nose up high, sniffing the air with great interest. Sound: bags rustling, the fridge humming, loud sniffing. 5-10s (Chopping): Same kitchen, daylight from the window, a wooden cutting board on the counter. The owner chops carrots with a knife. The dog lies on her mat at the far end of the kitchen, away from the counter, watching closely, her ears lifting at every chop. Sound: knife chopping on wood, radio quietly playing. 10-15s (Carrot stick): Kitchen, late morning daylight, beige tile floor. The owner's hand offers a small raw carrot stick low down. The dog takes it gently, carries it to her mat, lies down, and crunches it loudly while holding it between her front paws. Sound: loud crunching, owner says "your vegetables". 15-20s (Filling containers): Kitchen counter in daylight, a row of plastic meal prep containers being filled with rice, cooked chicken and broccoli. The dog sits beside the counter, perfectly still and polite, her eyes moving along the row of containers as each lid snaps on. Sound: lids snapping on, spoon tapping containers. 20-25s (Fridge stare): Kitchen, early afternoon, overcast light. The owner stacks the containers into the fridge. The dog pokes her head toward the open fridge, sniffing the cold air, and the owner gently closes the door, leaving her standing there staring at it. Sound: fridge door closing with a soft thump, a long sigh from the dog.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Unpacking groceries

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
