Washing Her Dog Bed

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Wash day for her furry bed: she refuses to get off, finally moves, watches the cover go into the machine, waits by the laundry room, and immediately refurs the clean bed.

TIMELINE

0-5s	Refusing to move
5-10s	Cover off
10-15s	Into the machine
15-20s	Waiting
20-25s	Fresh bed

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. 0-5s (Refusing to move): Living room, morning, cloudy daylight from the window, a big grey dog bed in the corner covered in black fur. The owner kneels and starts to unzip the cover. The dog stays lying right on the bed, refusing to move, looking up at the owner. Sound: zipper, owner says "come on, off you get", a stubborn huff. 5-10s (Cover off): Same living room, flat morning light, beige carpet. The owner pats their leg and the dog steps off onto the carpet, then watches with her ears back as the owner pulls the fur-covered cover off the foam cushion and shakes it out. Sound: fabric flapping, tags jingling, a little whine. 10-15s (Into the machine): Laundry room, morning, a small window with grey daylight, a white washing machine. The owner stuffs the grey bed cover into the drum, the detergent bottle up on a high shelf. The dog stands in the doorway, sniffs the cover one last time and sneezes. Sound: machine door thunk, a sneeze, owner laughing. 15-20s (Waiting): Laundry room, grey daylight, the washing machine humming and spinning. The dog lies on the floor in the doorway with her chin on the threshold, staring at the round machine door, and lets out a long sigh while the drum turns. Sound: washing machine humming and sloshing, a long sigh. 20-25s (Fresh bed): Living room, afternoon, soft window daylight. The clean grey cover is back on the bed, fluffy and fur-free. The dog walks over, sniffs it all over, rolls on her back on it wriggling, then lies down and gets comfortable, already shedding on it. Sound: fabric rustling, happy grumbles, owner says "lasted ten seconds".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Refusing to move

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
