Washing Her Toys

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Toy wash day: tipping out the toy basket, rinsing toys at the sink, a sneaky steal back, plush toys drying on the deck rail, and getting her duck back.

TIMELINE

0-5s	Toy basket dump
5-10s	Sink rinse
10-15s	Sneaky steal
15-20s	Drying on the rail
20-25s	Duck returned

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. 0-5s (Toy basket dump): Living room, Saturday morning, cloudy daylight, a wicker basket full of worn dog toys on the floor. The owner tips the basket over and the toys spill onto the rug. The dog walks in and starts sniffing through them, tail wagging, nose deep in the pile. Sound: toys thudding on the rug, a squeak, owner says "wash day". 5-10s (Sink rinse): Kitchen sink, morning daylight, warm water running. The owner scrubs a rubber ball and a rope toy under the tap with plain water and a brush. The dog stands on the tile floor beside the owner's legs, head tilted up, watching her toys in the sink. Sound: water running, brush scrubbing, a curious whine. 10-15s (Sneaky steal): Kitchen, morning daylight, beige tile floor, a towel spread on the floor with wet toys laid out to drip. The dog sneaks up to the towel, picks up a damp blue squeaky toy and trots off with it, squeaking it as she goes. Sound: soggy squeaks, claws on tile, owner laughing "that one's still wet". 15-20s (Drying on the rail): Backyard deck, late morning, pale sunshine, a wooden railing. Clean plush toys hang drying over the railing. The dog sits on the deck boards below, staring up at a green plush duck, and whines softly with her ears forward and her tail sweeping the boards. Sound: soft whining, birds, wind in the trees. 20-25s (Duck returned): Living room, afternoon daylight, rug on the floor. The owner drops the dry, clean plush duck on the rug. The dog pounces on it, squeaks it three times, and lies down with it between her front paws, chewing contentedly with her eyes half closed. Sound: three squeaks, happy chewing, owner says "there you go".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Toy basket dump

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
