Tidying the Garage

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A Saturday garage clean-out with the dog on her mat by the door: the door goes up, bins get stacked, an old frisbee turns up, the dust gets swept out, and a lap of the clean floor.

TIMELINE

0-5s	Door goes up
5-10s	Stacking bins
10-15s	Frisbee found
15-20s	Sweeping out
20-25s	Clean floor lap

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. 0-5s (Door goes up): Garage, Saturday morning, the roll-up door rising and letting flat daylight across the concrete floor, shelves of boxes and two bikes on the walls. The dog walks in under the rising door, sniffing the dusty floor and the corners, tail swinging slowly behind her. Sound: garage door rumbling up, sniffing, birds outside. 5-10s (Stacking bins): Garage in morning daylight from the open door. The owner stacks plastic storage bins onto a metal shelf. The dog lies on an old mat near the open door, away from the tool bench, watching the owner move back and forth. Sound: bins scraping onto metal shelving, owner humming. 10-15s (Frisbee found): Garage, morning daylight, an old box being pulled out from under a shelf. A faded blue plastic frisbee slides out across the concrete floor. The dog jumps up from her mat, chases it, and carries it back in her mouth, tail high. Sound: frisbee skidding on concrete, paws scrambling, owner says "I forgot about that". 15-20s (Sweeping out): Garage, daylight. The owner sweeps dust toward the open door with a push broom. The dog sits out on the driveway just past the door with the frisbee at her feet, sneezing at a little cloud of dust drifting out into the daylight. Sound: push broom scraping, a sneeze, a car passing. 20-25s (Clean floor lap): Garage, late morning, concrete floor swept clean, bins neatly on shelves, daylight from the open door. The dog trots one lap around the empty floor, sniffing the corners, then lies down on her mat by the door, panting, her tongue hanging out to one side. Sound: paws on concrete, panting, owner says "good as new".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Door goes up

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. Garage, Saturday morning, the roll-up door rising and letting flat daylight across the concrete floor, shelves of boxes and two bikes on the walls. The dog walks in under the rising door, sniffing the dusty floor and the corners, tail swinging slowly behind her. Sound: garage door rumbling up, sniffing, birds outside.

Clip 2 | 5-10s | Stacking bins

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
