MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. 0-5s (Basket out): Backyard, breezy sunny morning, a washing line strung between two posts over patchy grass. The owner carries a full plastic laundry basket out the back door. The dog trots ahead, tail high, and waits by the line, looking back at the owner. Sound: back door closing, wind, birds, tags jingling. 5-10s (Barking at the sheet): Same backyard, sunny and windy. The owner's hands peg a white sheet onto the line. The sheet billows out in the wind and the dog barks once at it, jumps back a step, then stares at it with her ears up. Sound: sheet flapping, one sharp bark, owner laughing "it's just a sheet". 10-15s (Between the sheets): Backyard, bright sunny morning, white sheets flapping on the line. The dog walks calmly between the hanging sheets, the cool damp fabric brushing over her back and ears, and pops out on the other side, looking around the yard with her tail wagging. Sound: fabric flapping, wind, birds. 15-20s (Sock steal): Backyard, sunny morning, patchy grass by the basket. A single grey sock falls from the basket onto the grass. The dog grabs it and trots away in a little circle, then comes back and drops it at the owner's feet, tail wagging. Sound: paws on grass, owner says "thank you, I think". 20-25s (Rolling in the grass): Backyard, late morning sunshine, laundry drying on the line. The dog lies on the grass in the moving shade under the flapping sheets, rolls onto her back with her legs in the air, and wriggles happily, bits of grass sticking to her black coat. Sound: grass rustling, happy grunts, sheets flapping.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
