Plant Repotting Day

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Repotting a dog-safe spider plant on the patio with a soil inspector: sniffing the supplies, watching the plant come out, a leave-it with the spilled soil, a Boston fern sniff, and a nose wipe.

TIMELINE

0-5s	Supplies check
5-10s	Plant comes out
10-15s	Leave it
15-20s	Fern sniff
20-25s	Nose wipe

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. 0-5s (Supplies check): Back patio, spring afternoon, soft sunshine, a plain brown bag of potting soil, terracotta pots and a spider plant on an old towel on the patio table. The dog walks up to the table and sniffs the bottom of the soil bag, tail wagging. Sound: birds, wind chimes, sniffing. 5-10s (Plant comes out): Same patio, afternoon sunshine, paving stones. The owner tips the root-bound spider plant out of its small plastic pot onto the towel. The dog sits beside the table watching, ears forward, nose working at the earthy smell, her tail resting still on the warm paving stones. Sound: plastic pot tapping, soil crumbling, owner says "look at those roots". 10-15s (Leave it): Patio in soft sunshine, a few crumbs of soil fallen on the paving stones. The dog sniffs them carefully, nose almost touching, then the owner says leave it and she lifts her head and looks away without eating any, then sits for a pat. Sound: sniffing, owner says "leave it... good girl". 15-20s (Fern sniff): Patio table in afternoon sunlight. The owner presses the spider plant into a bigger terracotta pot and pats soil around it. Below, the dog lies on the patio beside a Boston fern in its own pot, gently sniffing its fronds. Sound: soil patting, leaves rustling, birds. 20-25s (Nose wipe): Patio, late afternoon light, the repotted spider plant and fern lined up by the back door. The owner brushes a little soil off the dog's nose with a hand, and she shakes her head, ears flapping, then wags her tail. Sound: ears flapping, tags rattling, owner laughing.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Supplies check

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
