Watering the Vegetable Patch

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

An evening watering of the vegetable beds where the dog gets wetter than the plants: the hose turns on, she drinks from the stream, sniffs the beds, gets a fresh carrot, and shakes off.

TIMELINE

0-5s	Hose on
5-10s	Drinking from the hose
10-15s	Sniffing the beds
15-20s	Fresh carrot
20-25s	Big shake

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. 0-5s (Hose on): Backyard vegetable patch, early evening, warm low sunlight, raised wooden beds with lettuce and bean plants. The owner turns on the garden hose. The dog jumps at the first splash of water, then trots over to it across the grass, tail wagging and ears up. Sound: tap squeaking, water spraying, excited panting. 5-10s (Drinking from the hose): Same backyard in early evening light. The owner points a gentle hose stream low and the dog bites and laps at the water, splashing her face and ears, cold water dripping from her black chin onto the dirt path between the wooden beds. Sound: water splashing, chomping at the stream, owner laughing. 10-15s (Sniffing the beds): Backyard, early evening light, raised beds with rows of lettuce and feathery carrot tops. The owner waters the beds with a soft spray. The dog walks along the narrow path between the beds, nose down, sniffing the wet soil without digging. Sound: soft spray on leaves, sniffing, crickets starting. 15-20s (Fresh carrot): Backyard vegetable patch in evening light. The owner's hand pulls a small carrot from the soil, rinses it under the hose, and offers it low. The dog takes it gently and lies down on the grass to crunch it, holding it between her front paws. Sound: soil pulling, crunching, owner says "straight from the garden". 20-25s (Big shake): Backyard lawn beside the vegetable beds, evening light fading. The dog, damp from the hose, stands on the grass and does a full-body shake, water spraying off her black coat, then trots toward the back door, leaving damp paw prints on the patio stones. Sound: shake flapping, droplets, crickets, back door opening.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Hose on

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
