Setting the Dinner Table

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Setting the table for family dinner with the dog underfoot: the tablecloth lands on her, plates get sniffed, she returns a fallen napkin, eats her own dinner, and settles under the table.

TIMELINE

0-5s	Tablecloth drop
5-10s	Plate sniffing
10-15s	Napkin return
15-20s	Her dinner first
20-25s	Under the table

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. 0-5s (Tablecloth drop): Dining room, early evening, warm ceiling light and a lamp in the corner, a wooden table. The owner flaps out a plain cream tablecloth. The dog lies under the table on the rug and the edge of the cloth drops over her back, leaving her head peeking out. Sound: cloth whooshing, owner laughing "hello under there". 5-10s (Plate sniffing): Same dining room, warm evening lamp light. The owner sets four white plates around the table. The dog stands beside the table with her nose at the edge, sniffing each empty plate as it goes down, then looks up at the owner hopefully, tail wagging. Sound: plates clinking on wood, sniffing. 10-15s (Napkin return): Dining room in the evening, warm ceiling light, wooden floor. A paper napkin flutters off the table and lands on the floor. The dog picks it up and carries it to the owner, who takes it from her mouth and puts it back on the table. Sound: napkin rustling, owner says "thank you, waiter". 15-20s (Her dinner first): Kitchen next to the dining room, warm evening light, beige tile floor. The owner sets the dog's steel bowl of kibble on a mat by the doorway. The dog eats while chair legs scrape in the dining room in the background. Sound: kibble crunching, chairs scraping, family chatter. 20-25s (Under the table): Dining room in the evening, warm lamp light, family legs and feet under the set table. The dog lies down under the table between the feet, chin on one person's shoe, eyes closing, tail thumping once on the rug as the meal begins above her. Sound: cutlery clinking, family chatter, a contented sigh.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Tablecloth drop

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. Dining room, early evening, warm ceiling light and a lamp in the corner, a wooden table. The owner flaps out a plain cream tablecloth. The dog lies under the table on the rug and the edge of the cloth drops over her back, leaving her head peeking out. Sound: cloth whooshing, owner laughing "hello under there".

Clip 2 | 5-10s | Plate sniffing

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
