Bakery Morning Walk

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

An early walk to the neighborhood bakery: leashing up, a quiet street, waiting politely outside, a plain dog biscuit from the baker and the walk home with the bread bag.

TIMELINE

0-5s	Leashing up
5-10s	Quiet street walk
10-15s	Waiting outside
15-20s	Plain biscuit treat
20-25s	Walking home

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. 0-5s (Leashing up): Front hallway of a small house, early morning, soft grey daylight through the small window in the door, sneakers on a worn doormat. The owner's hand clips a green leash to the dog's collar while she sits and wiggles, tail sweeping the floor. She stands up the moment the door handle turns. Sound: leash clip clicking, tail thumping the floor, owner says "bakery time". 5-10s (Quiet street walk): Quiet residential street just after sunrise, pale overcast light, damp sidewalk, parked cars and small front yards. Owner point of view looking down at the dog walking on a loose leash beside the owner's legs, nose low, pausing to sniff the base of a lamppost before trotting on. Sound: footsteps, birds chirping, a car passing slowly in the distance. 10-15s (Waiting outside): Small neighborhood bakery on a street corner, morning daylight, plain red brick wall, a wooden bench, no signs visible. The dog sits on the sidewalk next to the owner's legs, leash short and held firmly, sniffing the warm bread smell drifting out of the open door, nostrils twitching, ears forward. Sound: door chime, muffled voices inside, the dog sniffing loudly. 15-20s (Plain biscuit treat): Same sidewalk outside the bakery, soft morning light. A baker in a flour-dusted apron crouches in the doorway and offers a plain round dog biscuit on her flat palm while the owner holds the leash. The dog takes it gently, crunches it, crumbs falling onto the grey pavement, tail wagging low. Sound: crunching, baker laughing, owner says "say thank you". 20-25s (Walking home): Back on the same residential street, morning daylight a little brighter, the owner holding a brown paper bakery bag in one hand and the leash in the other. The dog trots alongside, glancing up at the bag every few steps, then stops to sniff a trimmed hedge by a mailbox. Sound: paper bag rustling, footsteps, tags jingling.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Leashing up

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. Front hallway of a small house, early morning, soft grey daylight through the small window in the door, sneakers on a worn doormat. The owner's hand clips a green leash to the dog's collar while she sits and wiggles, tail sweeping the floor. She stands up the moment the door handle turns. Sound: leash clip clicking, tail thumping the floor, owner says "bakery time".

Clip 2 | 5-10s | Quiet street walk

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. FACEBOOK CAPTION

She gets one plain biscuit, I get the croissants.
Fair trade, right?

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
