Bank Drive-Up Dog Treat

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A quick bank errand by car: buckling her harness seatbelt, riding in the back, pulling into the drive-up lane, the teller sending out a dog treat and munching it on the way home.

TIMELINE

0-5s	Harness seatbelt
5-10s	Back seat ride
10-15s	Drive-up lane
15-20s	Treat in the drawer
20-25s	Munching on the way

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. 0-5s (Harness seatbelt): Driveway of a suburban house, late morning, bright overcast daylight. The rear door of a silver hatchback is open and the dog sits on the back seat on a grey blanket. The owner's hands click a short seatbelt tether onto the back of her black harness while she licks the owner's wrist. Sound: seatbelt buckle click, harness jingling, owner says "all set". 5-10s (Back seat ride): Inside the moving hatchback, daytime, filmed by a passenger turned around in the front seat. The dog sits upright on the back seat in her harness seatbelt, looking out the side window at houses and trees sliding past, ears turning, nose leaving small smudges on the glass. Sound: engine hum, turn signal ticking, soft road noise. 10-15s (Drive-up lane): Bank drive-up lane, daytime, flat grey light, concrete curb and a plain beige wall with a metal drawer, no visible signs or screens. The car is stopped with the engine off. The dog leans forward from the back seat as far as her harness tether allows, sniffing toward the open driver window. Sound: engine off silence, faint speaker voice, the dog sniffing. 15-20s (Treat in the drawer): Same drive-up lane, daytime. The metal drawer slides out and the owner's hand takes a small paper envelope and a plain bone-shaped dog biscuit. The owner turns and holds the biscuit back toward the dog, who takes it carefully from the fingers, still clipped in on the back seat. Sound: drawer sliding out with a clunk, a crunch, owner says "they remembered you". 20-25s (Munching on the way): Inside the parked car at the edge of the bank lot, daylight through the windows. The dog lies on the grey blanket on the back seat in her harness, licking biscuit crumbs off the blanket, then rests her chin on the seat and looks up at the camera with her ears relaxed. Sound: licking, blanket rustling, a happy sigh.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Harness seatbelt

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. Driveway of a suburban house, late morning, bright overcast daylight. The rear door of a silver hatchback is open and the dog sits on the back seat on a grey blanket. The owner's hands click a short seatbelt tether onto the back of her black harness while she licks the owner's wrist. Sound: seatbelt buckle click, harness jingling, owner says "all set".

Clip 2 | 5-10s | Back seat ride

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
