Car Ride to Pick Up Dad

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Riding along to pick up Dad after work: hearing the word Dad, jumping into the back seat, watching the street, spotting him in the parking lot and the happy greeting.

TIMELINE

0-5s	Hearing the word
5-10s	Into the back seat
10-15s	Watching the street
15-20s	Spotting Dad
20-25s	The greeting

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. 0-5s (Hearing the word): Kitchen, late afternoon, warm daylight from the window, beige tile floor. The dog lies on a rug, and when the owner off camera says the word Dad she lifts her head fast, ears straight up, then stands and trots to the door leading to the garage, tail wagging. Sound: owner says "want to go get Dad?", claws clicking on tile. 5-10s (Into the back seat): Garage, late afternoon light from the open garage door, concrete floor, bikes against the wall. The rear door of a blue sedan is open, the dog hops onto the back seat and the owner's hands clip the seatbelt tether to her black harness while she looks out the front. Sound: car door creaking, seatbelt click, garage door motor humming. 10-15s (Watching the street): Inside the moving sedan, late afternoon daylight, filmed by a teenage passenger sitting next to the dog in the back seat. The dog sits in her harness seatbelt looking out the side window, the rear window open a few inches, her nose sniffing the air coming in. Sound: wind through the gap, road noise, the dog sniffing. 15-20s (Spotting Dad): Parked car in an office parking lot, late afternoon, long soft daylight, rows of parked cars. The car is stopped with the engine off. The dog suddenly stands on the back seat, still clipped in, staring out the window, tail wagging hard as a man in a work shirt walks toward the car. Sound: excited whining, tail thumping the seat, passenger says "there he is". 20-25s (The greeting): Same parking lot, late afternoon light. The man opens the rear door and leans in. The dog, still in her harness seatbelt on the back seat, pushes her head into his chest and licks his chin, her whole body wiggling, while he rubs her ears with both hands. Sound: happy whines, man laughing "hi girl, I missed you too".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Hearing the word

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. Kitchen, late afternoon, warm daylight from the window, beige tile floor. The dog lies on a rug, and when the owner off camera says the word Dad she lifts her head fast, ears straight up, then stands and trots to the door leading to the garage, tail wagging. Sound: owner says "want to go get Dad?", claws clicking on tile.

Clip 2 | 5-10s | Into the back seat

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
