Riding Along to the Car Mechanic

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Riding along to drop the car at the mechanic: the back seat ride, waiting on a short leash in the shop lobby, a pat from the mechanic, watching the garage door and the walk out.

TIMELINE

0-5s	Back seat ride
5-10s	Shop lot sniffing
10-15s	Lobby wait
15-20s	Mechanic says hi
20-25s	Walking out

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. 0-5s (Back seat ride): Inside a slightly old pickup truck cab, morning, grey overcast light through the windows, filmed by a passenger in the front seat. The dog sits on the back bench seat in her black harness clipped to the seatbelt, swaying a little with the turns and looking out the side window. Sound: rattly engine, a squeaky dashboard, turn signal ticking. 5-10s (Shop lot sniffing): Small auto repair shop parking lot, morning, flat grey daylight, cracked asphalt with oil stains, an open roll-up garage door, no readable signs. The dog walks on a short leash beside the owner, sniffing the asphalt carefully and steering around a puddle. Sound: air tool buzzing inside the garage, footsteps, a radio playing faintly. 10-15s (Lobby wait): Tiny shop waiting room, daytime, plain fluorescent light, scuffed grey floor, two plastic chairs and a coffee machine. The dog lies on the floor at the owner's feet on a short leash, head up, ears swiveling at the sounds coming from the garage behind the wall. Sound: clanking tools, muffled voices, the dog sighing. 15-20s (Mechanic says hi): Same waiting room, fluorescent light. A mechanic in a navy work shirt with clean hands crouches down and holds out the back of his hand. The dog sniffs it politely, then lets him scratch her chest while her tail sweeps slowly across the floor. Sound: mechanic says "good dog, she can come any time", tail swishing. 20-25s (Walking out): Outside the auto shop, late morning, overcast light breaking a little, the sidewalk next to the parking lot. The dog walks away beside the owner on a loose leash, looking back once at the open garage door, then trots on toward a grassy verge to sniff. Sound: garage noise fading, traffic, footsteps.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Back seat ride

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. Inside a slightly old pickup truck cab, morning, grey overcast light through the windows, filmed by a passenger in the front seat. The dog sits on the back bench seat in her black harness clipped to the seatbelt, swaying a little with the turns and looking out the side window. Sound: rattly engine, a squeaky dashboard, turn signal ticking.

Clip 2 | 5-10s | Shop lot sniffing

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. FACEBOOK CAPTION

The car needed new brakes. She needed to meet the whole shop.
She is always my errand buddy.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
