Walk Around the School Track

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

An early evening walk around the empty school track: leashing up at the gate, laps on the outside lane, sniffing the bleachers, a sit for a treat and a rest in the grass.

TIMELINE

0-5s	Through the gate
5-10s	Outside lane walk
10-15s	Bleacher sniff
15-20s	Sit for a treat
20-25s	Grass rest

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. 0-5s (Through the gate): Chain link gate of a public school track, early evening, soft overcast light, an empty track with no people nearby. The dog waits on a leash while the owner's hand pushes the gate open, then she walks through, sniffing the gate post, tail high and relaxed. Sound: gate rattling, birds, distant traffic. 5-10s (Outside lane walk): Red rubber running track, early evening, flat overcast daylight, white lane lines and green grass in the middle. Owner point of view looking down at the dog trotting on a loose leash along the outside lane, her shadow faint on the track, ears bouncing with each step. Sound: steady footsteps on rubber, panting, tags jingling. 10-15s (Bleacher sniff): Beside aluminum bleachers at the edge of the track, early evening light. The dog pokes her nose under the lowest bench, sniffing a dropped paper cup and some leaves, then backs out when the owner gently tugs the leash and says to leave it. Sound: sniffing, leaves crunching, owner says "leave it". 15-20s (Sit for a treat): On the track, early evening, overcast light. The dog sits squarely on the red track surface facing the owner, eyes locked on the owner's hand. The hand drops a small training treat and she catches it in the air with a snap, then licks her lips. Sound: treat pouch zipper, a snap, owner says "good girl". 20-25s (Grass rest): Grassy edge next to the track, dusk, light fading to grey blue, stadium lights off. The dog lies down in the slightly damp grass, panting gently, and rolls onto her side for a moment, then props herself up and watches a bird land on the track. Sound: panting, crickets, a bird chirping.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Through the gate

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. Chain link gate of a public school track, early evening, soft overcast light, an empty track with no people nearby. The dog waits on a leash while the owner's hand pushes the gate open, then she walks through, sniffing the gate post, tail high and relaxed. Sound: gate rattling, birds, distant traffic.

Clip 2 | 5-10s | Outside lane walk

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
