Library Book Drop Walk

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Walking a stack of books back to the library: carrying the tote, a stop to sniff a tree, dropping books in the outdoor return box, a bench rest and a sniff of the library lawn.

TIMELINE

0-5s	Tote bag sniff
5-10s	Tree stop
10-15s	Book return
15-20s	Bench rest
20-25s	Lawn sniff

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. 0-5s (Tote bag sniff): Entryway of the house, afternoon, natural daylight from a side window, a canvas tote bag full of books on the floor by the door. The dog sniffs the bag, pokes her nose into the top, then backs away and sits when the owner picks up the leash. Sound: canvas rustling, sniffing, owner says "library run". 5-10s (Tree stop): Tree-lined neighborhood sidewalk, afternoon, dappled sunlight through maple leaves, uneven concrete slabs. The dog stops at the base of a large tree and sniffs around the roots for a long time, while the owner's hand holding the tote bag swings into view. Sound: leaves rustling, a squirrel chattering, footsteps stopping. 10-15s (Book return): Outside a brick library building, afternoon, overcast light, a plain grey metal book return box at the curb with nothing readable on it. The dog sits beside the box on a short leash watching closely as the owner's hand slides books one by one into the slot. Sound: books thudding inside the box, metal flap squeaking. 15-20s (Bench rest): Wooden bench on the library lawn, afternoon, soft cloudy daylight. The owner sits, and the dog lies down on the grass by the owner's feet, leash slack, resting her head on the owner's sneaker and blinking slowly at people far across the lawn. Sound: distant voices, wind in trees, a soft sigh. 20-25s (Lawn sniff): Library front lawn, late afternoon, cloudy light, trimmed grass and a few fallen leaves. The dog walks on a loose leash zig-zagging across the grass, nose down, following a scent trail, then lifts her head and looks back at the camera, ready to go home. Sound: grass swishing, birds, owner says "homeward".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Tote bag sniff

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. Entryway of the house, afternoon, natural daylight from a side window, a canvas tote bag full of books on the floor by the door. The dog sniffs the bag, pokes her nose into the top, then backs away and sits when the owner picks up the leash. Sound: canvas rustling, sniffing, owner says "library run".

Clip 2 | 5-10s | Tree stop

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
