Humid Summer Morning

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Beating the heat on a sticky summer morning: a very early walk, a water break, sniffing dewy grass, lying on the cooling mat on the porch and a fan breeze inside.

TIMELINE

0-5s	Dawn departure
5-10s	Dewy grass
10-15s	Water break
15-20s	Cooling mat
20-25s	Fan breeze

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. 0-5s (Dawn departure): Front steps of the house, very early morning, hazy pale light, humid air and foggy street. The dog walks down the steps on a leash beside the owner's legs, pausing to sniff the damp air, tail wagging slowly, the porch light still on behind them. Sound: birds, buzzing insects, owner says "early before it gets hot". 5-10s (Dewy grass): Neighborhood park lawn, early morning, misty humid light, grass soaked with dew. The dog walks with her nose down through the wet grass on a leash, paws and legs getting damp, leaving a dark trail of footprints in the silvery dew behind her. Sound: wet grass swishing, birds, distant sprinkler. 10-15s (Water break): Shaded park bench area, early morning, hazy light filtering through trees. The owner squeezes water from a sports bottle into a cupped palm and the dog laps from the hand, then from a small travel bowl on the ground, water dripping off her chin. Sound: water squirting, lapping, cicadas starting. 15-20s (Cooling mat): Covered back porch, morning, bright hazy daylight, humid and still, a blue gel cooling mat on the wooden boards. The dog walks onto the mat, circles once and lies down flat, stretching her legs out behind her, panting slowly, ears relaxed. Sound: porch boards creaking, panting, insects buzzing. 20-25s (Fan breeze): Living room, late morning, shades half drawn, dim natural light, a white standing fan oscillating. The dog lies on the floor in front of the fan, her fur rippling gently each time the breeze passes, and she blinks slowly and rests her chin on the carpet. Sound: fan whirring, soft sighs, a clock ticking.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Dawn departure

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. Front steps of the house, very early morning, hazy pale light, humid air and foggy street. The dog walks down the steps on a leash beside the owner's legs, pausing to sniff the damp air, tail wagging slowly, the porch light still on behind them. Sound: birds, buzzing insects, owner says "early before it gets hot".

Clip 2 | 5-10s | Dewy grass

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
