First Snow Flurries

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The first flurries of the season: noticing flakes through the window, stepping out onto a dusted deck, snapping at falling flakes, a short walk on the leash and drying her paws.

TIMELINE

0-5s	Window watch
5-10s	First steps out
10-15s	Snapping at flakes
15-20s	Snowy street walk
20-25s	Paw drying

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. 0-5s (Window watch): Living room, late morning, cold white-grey daylight through a big window, small snowflakes drifting past outside. The dog stands with her front paws on the low windowsill, nose close to the glass, head tilting as she follows the falling flakes. Sound: quiet house, heater humming, owner says "it's snowing". 5-10s (First steps out): Back deck, late morning, flat white-grey light, a thin dusting of snow on the wooden boards. The dog steps out the sliding door, stops, lifts one front paw and sniffs the white boards, then puts it down and walks forward, leaving small prints. Sound: sliding door rolling, soft crunch, a quiet sniff. 10-15s (Snapping at flakes): Fenced backyard, late morning, snow falling lightly from a pale grey sky, grass turning white in patches. The dog stands in the middle of the yard and snaps at flakes in the air, jaws clicking, then licks her nose where a flake landed. Sound: jaws snapping, soft wind, owner laughing. 15-20s (Snowy street walk): Neighborhood sidewalk, early afternoon, quiet snowy light, flakes falling on parked cars and a dusted lawn. The dog walks on a leash beside the owner's winter boots, flakes settling on her black back and melting, her breath faintly visible in the cold air. Sound: muffled footsteps, distant snow shovel scraping. 20-25s (Paw drying): Front entryway, afternoon, warm lamp light, a towel spread on the tile floor. The dog stands on the towel while the owner's hands dry each paw one by one, wiping snow from between her toes. She licks the owner's ear once. Sound: towel rubbing, melting snow dripping, owner says "other paw".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Window watch

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
