Careful Walk on the Icy Sidewalk

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A slow, careful winter walk: putting on paw boots, tiptoeing on an icy patch, walking on the snowy grass edge instead, a sniff at a snowbank and wiping her legs at home.

TIMELINE

0-5s	Paw boots on
5-10s	Tiptoeing
10-15s	Grass edge
15-20s	Snowbank sniff
20-25s	Leg wiping

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. 0-5s (Paw boots on): Front hallway, morning, cold grey daylight from the door window, winter coats on hooks. The owner's hands pull a red rubber paw boot onto the dog's front foot. She lifts each paw high and stomps it down in the boot, looking at her feet. Sound: velcro straps, the dog's stomping steps, owner laughing. 5-10s (Tiptoeing): Neighborhood sidewalk, morning, cold overcast light, a shiny patch of ice across the concrete. The dog slows down on a short leash and steps carefully with high, slow steps in her red boots, keeping close to the owner's winter boots. Sound: crunchy ice, careful footsteps, owner says "easy, easy". 10-15s (Grass edge): Edge of the sidewalk, morning, grey winter light, a strip of snowy grass beside the icy path. The owner guides the dog onto the snowy grass, and she walks faster there with confident steps, the snow crunching under her booted paws. Sound: snow crunching, cars on a slushy road, owner says "better". 15-20s (Snowbank sniff): Street corner, morning, overcast winter daylight, a dirty grey snowbank piled by the curb. The dog, on a short leash, pushes her nose into the side of the snowbank, sniffing deeply, and comes out with snow stuck to her black muzzle, then sneezes. Sound: snow squeaking, a sneeze, slush splashing from a passing car. 20-25s (Leg wiping): Back in the front hallway, late morning, warm overhead light, boots removed and lying on a rubber mat. The owner wipes the dog's legs and belly with a damp cloth to remove road salt. She stands still, then flops down on the rug when it is done. Sound: cloth wiping, boots dripping, owner says "no salt on those paws".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Paw boots on

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. Front hallway, morning, cold grey daylight from the door window, winter coats on hooks. The owner's hands pull a red rubber paw boot onto the dog's front foot. She lifts each paw high and stomps it down in the boot, looking at her feet. Sound: velcro straps, the dog's stomping steps, owner laughing.

Clip 2 | 5-10s | Tiptoeing

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
