Muddy Spring Field

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A spring walk in a soggy field: the long leash in wet grass, sniffing fresh green shoots, muddy paws, a hose rinse in the driveway and a nap on an old towel.

TIMELINE

0-5s	Long leash start
5-10s	Spring sniffing
10-15s	Mud patch
15-20s	Hose rinse
20-25s	Towel nap

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. 0-5s (Long leash start): Edge of an open field, spring morning, soft cloudy light, wet green grass with bare muddy patches and a wooden fence line. The owner unrolls a long training leash and the dog trots out ahead, the leash dragging through the damp grass behind her. Sound: birds, squelching footsteps, leash whispering in grass. 5-10s (Spring sniffing): Middle of the spring field, morning, mild cloudy daylight, new green shoots and small yellow wildflowers. The dog moves slowly with her nose to the ground, sniffing each clump intensely, her tail wagging, the long leash curving through the grass. Sound: sniffing, meadowlark song, distant tractor. 10-15s (Mud patch): Low muddy patch in the field, morning light, dark wet mud and puddles. The dog walks straight through, her paws sinking with a squelch, mud splashing up her legs and belly. She stops and looks back at the camera with brown legs. Sound: mud squelching, owner groans "oh no, really". 15-20s (Hose rinse): Gravel driveway at home, late morning, cloudy daylight, a green garden hose. The dog stands on the gravel on a leash looped around the owner's wrist while a gentle stream of water rinses her muddy legs, brown water running onto the stones. She lifts one paw. Sound: water spraying, gravel crunching, owner says "stand, almost done". 20-25s (Towel nap): Laundry room, early afternoon, soft daylight from a small window, an old striped towel on the linoleum floor. The dog lies curled on the towel, legs still a little damp, eyes closing, letting out a long sigh as the dryer hums next to her. Sound: dryer humming, a long sigh, quiet house.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Long leash start

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. Edge of an open field, spring morning, soft cloudy light, wet green grass with bare muddy patches and a wooden fence line. The owner unrolls a long training leash and the dog trots out ahead, the leash dragging through the damp grass behind her. Sound: birds, squelching footsteps, leash whispering in grass.

Clip 2 | 5-10s | Spring sniffing

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
