Quick Visit to the Neighbors' Porch

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Dropping off a borrowed dish next door: walking across the lawns, sitting politely at the porch, a scratch from the neighbor, sniffing the porch plants and trotting back home.

TIMELINE

0-5s	Across the lawns
5-10s	Polite sit
10-15s	Neighbor scratch
15-20s	Plant sniffing
20-25s	Trotting home

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. 0-5s (Across the lawns): Two front lawns side by side, early evening, warm soft daylight, a low hedge between the yards. The owner carries a covered glass dish in one hand and holds the leash in the other while the dog walks across the grass beside them, tail wagging. Sound: birds, grass swishing, owner says "let's go see the neighbors". 5-10s (Polite sit): Neighbor's front porch steps, early evening, soft natural light, white railings and potted flowers. The dog sits at the bottom of the steps on a short leash, looking up at the closed front door with her ears forward as the doorbell rings. Sound: doorbell chime, footsteps inside, tail swishing on the step. 10-15s (Neighbor scratch): Same porch, early evening light, the front door open. A gray-haired neighbor in a cardigan steps out, takes the glass dish and bends down to scratch the dog behind the ears. The dog leans into the scratch, eyes half closed. Sound: neighbor says "look who came to visit", happy grunting. 15-20s (Plant sniffing): Neighbor's porch, early evening, soft daylight, terracotta pots of geraniums and a rocking chair. While the adults chat, the dog sniffs each flower pot carefully on a short leash, nose brushing the leaves, never touching the plants with her mouth. Sound: adults chatting, a rocking chair creaking, sniffing. 20-25s (Trotting home): Front lawns at dusk, sky soft grey-pink, porch lights coming on. The dog trots back across the grass on a loose leash toward her own front door, looks back once at the neighbor waving from the porch, then bounds up her own steps. Sound: neighbor calls "bye girl", crickets, footsteps on steps.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Across the lawns

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
