Waiting in the Car at the Gas Station

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A cool-day gas stop: pulling up with the engine off, waiting in the back seat with her family, watching the owner right outside the open window, a treat through the window and back on the road.

TIMELINE

0-5s	Pulling in
5-10s	Owner at the window
10-15s	With her family
15-20s	Window treat
20-25s	Back on the road

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. 0-5s (Pulling in): Gas station on a cool cloudy afternoon, flat grey daylight, concrete pad and plain pumps with their displays facing away, no readable signs. Filmed from the back seat, the dog sits buckled in her harness seatbelt, peering out the side window as the car stops and the engine turns off. Sound: engine shutting off, tires stopping, cool breeze through the window. 5-10s (Owner at the window): Same gas station, cool overcast day, the rear window rolled fully down. The owner stands right outside the open window beside the pump, one arm resting on the door. The dog sniffs toward the owner's arm, tail thumping the seat, still clipped in. Sound: pump clicking, owner says "right here, girl", tail thumping. 10-15s (With her family): Back seat of the parked car, cool grey daylight, engine off. The owner's young daughter sits next to the dog with a seatbelt on, petting her chest, while the dog sits calmly in her harness seatbelt, watching a pigeon walk across the concrete outside. Sound: pigeon cooing, daughter giggling, the pump humming. 15-20s (Window treat): Same open rear window at the gas station, cool cloudy afternoon. The owner, still standing beside the car, holds a plain dog biscuit in a flat palm through the window. The dog takes it gently and crunches it while the daughter watches. Sound: crunching, nozzle clunking back into the pump, owner says "good waiting". 20-25s (Back on the road): Inside the car pulling away from the gas station, cool grey daylight, filmed by the daughter in the back seat. The dog sits in her harness seatbelt, the window now partly up, and lays down on the seat, resting her chin on the daughter's knee. Sound: engine starting, turn signal ticking, a soft sigh.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Pulling in

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. Gas station on a cool cloudy afternoon, flat grey daylight, concrete pad and plain pumps with their displays facing away, no readable signs. Filmed from the back seat, the dog sits buckled in her harness seatbelt, peering out the side window as the car stops and the engine turns off. Sound: engine shutting off, tires stopping, cool breeze through the window.

Clip 2 | 5-10s | Owner at the window

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
