Walking Home From the Park

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The slow, tired walk home after the park: leaving the park gate, stopping for a long sniff, crossing the street carefully, lagging behind a little and drinking a whole bowl at home.

TIMELINE

0-5s	Leaving the park
5-10s	Long sniff
10-15s	Careful crossing
15-20s	Lagging behind
20-25s	Big drink

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. 0-5s (Leaving the park): Park exit by a chain link fence, late afternoon, soft warm daylight, a dirt path and green grass behind. The dog walks out on a leash beside the owner, tongue hanging out, coat a little dusty, glancing back at the open field one last time. Sound: kids playing far away, panting, owner says "time to go home". 5-10s (Long sniff): Neighborhood sidewalk, late afternoon, long soft shadows, a wooden telephone pole with grass at its base. The dog stops and sniffs the pole for a long time while the leash goes slack and the owner's sneakers shift impatiently at the edge of the frame. Sound: sniffing, birds, owner sighs "are you done?". 10-15s (Careful crossing): Quiet street crossing, late afternoon daylight, white crosswalk stripes on grey asphalt, a car waiting at the stop line. The dog sits at the curb on a short leash, then walks across beside the owner's legs, steady and close, ears relaxed. Sound: idling car, footsteps, owner says "okay, let's go". 15-20s (Lagging behind): Residential sidewalk near home, early evening, soft fading light, front gardens and parked cars. Owner point of view turned back: the dog walks slowly a step behind on the leash, head low and tired, then speeds up into a trot when the house comes into view. Sound: slow tags jingling, owner laughs "almost there". 20-25s (Big drink): Kitchen, early evening, warm overhead light, beige tile floor, a steel water bowl by the fridge. The dog drinks noisily from the bowl for a long time, water splashing on the tiles, then lies down right next to the bowl with a deep sigh. Sound: loud lapping, dripping water, a heavy sigh.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Leaving the park

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. Park exit by a chain link fence, late afternoon, soft warm daylight, a dirt path and green grass behind. The dog walks out on a leash beside the owner, tongue hanging out, coat a little dusty, glancing back at the open field one last time. Sound: kids playing far away, panting, owner says "time to go home".

Clip 2 | 5-10s | Long sniff

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. FACEBOOK CAPTION

The walk to the park: 10 minutes. The walk home: 35 minutes.
Why is the way home always slower?

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
