Puppy Diary - Day One

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The very first day home with the puppy: coming through the front door, sniffing the living room, her first drink, a careful look at the backyard grass and falling asleep in her new bed.

TIMELINE

0-5s	Through the door
5-10s	Sniffing the room
10-15s	First drink
15-20s	Meeting the grass
20-25s	Asleep in her bed

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 9-week-old female solid black German Shepherd puppy with fluffy all-black fur, oversized paws and floppy ears that are just starting to stand, wearing a small green collar. 0-5s (Through the door): Front hallway of a small house, early afternoon, plain daylight from the open door, grey tile floor with a pile of shoes by the wall. The owner's hands set the puppy down gently on the tiles. She stands still for a moment, then takes a few wobbly steps forward, sniffing the floor with her tail low and wagging. Sound: door closing, soft paws on tile, owner whispers "welcome home, little one". 5-10s (Sniffing the room): Living room, afternoon daylight through a big window, worn brown carpet, a grey couch and a basket of laundry on the floor. The puppy wanders along the bottom of the couch, sniffing every corner, stops to sniff a rolled-up sock and then sits down suddenly and looks up at the camera. Sound: quiet house, tiny sniffing, a soft squeak from the puppy. 10-15s (First drink): Kitchen, afternoon daylight, beige tile floor, a small new steel water bowl next to the fridge. The puppy walks up to the bowl, sniffs it, then laps clumsily, splashing water on her chin and on the tiles. She pulls back, shakes her head and licks her nose. Sound: tiny lapping, water dripping, owner laughs softly. 15-20s (Meeting the grass): Small backyard, late afternoon, overcast daylight, short patchy grass, a wooden fence and a plastic garden chair. The puppy stands at the edge of the patio step, puts one front paw on the grass, pulls it back, then hops down and sniffs a dandelion with her ears flopping. Sound: birds, a neighbor's lawn mower far away, owner says "it's just grass". 20-25s (Asleep in her bed): Living room in the evening, ordinary warm floor lamp light, a small round grey dog bed with a folded fleece blanket beside the couch. The puppy is curled up in the bed, eyes closed, belly rising and falling, one oversized paw twitching. The owner's hand gently pulls the blanket edge over her. Sound: TV murmuring in another room, tiny puppy breaths, a small sigh.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Through the door

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real 9-week-old female solid black German Shepherd puppy with fluffy all-black fur, oversized paws and floppy ears that are just starting to stand, wearing a small green collar. Front hallway of a small house, early afternoon, plain daylight from the open door, grey tile floor with a pile of shoes by the wall. The owner's hands set the puppy down gently on the tiles. She stands still for a moment, then takes a few wobbly steps forward, sniffing the floor with her tail low and wagging. Sound: door closing, soft paws on tile, owner whispers "welcome home, little one".

Clip 2 | 5-10s | Sniffing the room

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
