Puppy Diary - Week Two

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Week two with the puppy: a wiggly morning hello in her pen, a messy breakfast, a rope toy battle, her first try with a leash in the backyard and a nap on the owner's feet.

TIMELINE

0-5s	Morning hello
5-10s	Messy breakfast
10-15s	Rope toy battle
15-20s	First leash
20-25s	Nap on feet

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 9-week-old female solid black German Shepherd puppy with fluffy all-black fur, oversized paws and floppy ears that are just starting to stand, wearing a small green collar. 0-5s (Morning hello): Corner of a kitchen, early morning, grey window light, a low wire puppy pen on beige tile with a towel inside. The puppy stands up on her back legs against the low wire for a moment, then drops down and spins in a small circle, tail wagging hard as the owner's hand reaches in. Sound: tiny whines, tags jingling, owner says "good morning, you". 5-10s (Messy breakfast): Kitchen, morning daylight, beige tile floor, a shallow steel bowl of soaked kibble. The puppy eats with her front paws standing in the edge of the bowl, pushing it across the tiles as she eats. She looks up with a crumb on her nose, then goes back to eating. Sound: bowl scraping on tile, small chewing sounds, owner chuckles. 10-15s (Rope toy battle): Living room, late morning daylight, worn brown carpet. The owner's hand wiggles one end of a short blue rope toy on the floor. The puppy pounces on the other end, grabs it, growls a tiny growl and tugs backward, her paws sliding on the carpet and her ears flopping. Sound: tiny puppy growls, soft carpet sounds, owner says "so tough". 15-20s (First leash): Backyard, midday, overcast daylight, patchy grass, wooden fence. The puppy wears a light red leash clipped to her collar for the first time. She sits down firmly on the grass and refuses to move, then chews the leash, then suddenly trots forward toward the owner's crouching legs. Sound: birds, leash clip jingling, owner says "come on, this way". 20-25s (Nap on feet): Home office corner, afternoon daylight from a side window, wooden floor, the owner's feet in grey socks under a desk. The puppy is sound asleep draped across both feet, her chin on one ankle. The camera looks down from the owner's point of view as she sighs. Sound: soft keyboard clicks, a tiny sigh, distant car outside.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Morning hello

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
