Puppy Diary - Week Four

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Week four and the puppy is getting braver: racing to the door at the sound of keys, carrying off a sock, climbing the porch step, trying a carrot and sleeping belly up.

TIMELINE

0-5s	Hears the keys
5-10s	Sock thief
10-15s	Porch step
15-20s	Carrot taste test
20-25s	Belly up nap

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 9-week-old female solid black German Shepherd puppy with fluffy all-black fur, oversized paws and floppy ears that are just starting to stand, wearing a small green collar. 0-5s (Hears the keys): Narrow hallway, late afternoon, daylight from a small window by the front door, laminate floor. The puppy comes running from the far end of the hallway, paws slipping a little on the floor, ears bouncing, and skids to a stop at the owner's legs with her whole back end wiggling. Sound: keys jingling, door opening, tiny claws on laminate, owner says "I'm home". 5-10s (Sock thief): Bedroom, morning daylight through thin white curtains, a laundry basket on a blue rug. The puppy pulls a striped sock out of the basket, holds it proudly in her mouth and trots away across the rug, glancing back at the camera to see if anyone will follow. Sound: soft paws on the rug, owner says "hey, that's mine". 10-15s (Porch step): Front porch, midday, overcast daylight, one low concrete step and a worn doormat. The puppy puts both front paws on the step, pushes with her back legs, scrambles up with a small wobble and then turns around and looks down at the step she just climbed. Sound: street sounds, scrabbling paws, owner claps and says "you did it". 15-20s (Carrot taste test): Kitchen, late afternoon daylight, beige tile floor. The owner's hand holds out a small piece of raw carrot. The puppy sniffs it, takes it gently, drops it on the tiles, sniffs it again and then lies down and chews it with her head tilted to one side. Sound: crunching, fridge humming, owner says "you like it?". 20-25s (Belly up nap): Living room in the evening, ordinary lamp light, a grey couch with a fleece blanket on the seat. The puppy sleeps on her back on the blanket, back legs spread out, front paws folded, mouth slightly open, her round belly moving with each breath. Sound: quiet TV, soft puppy snore, owner whispers "look at her".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Hears the keys

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real 9-week-old female solid black German Shepherd puppy with fluffy all-black fur, oversized paws and floppy ears that are just starting to stand, wearing a small green collar. Narrow hallway, late afternoon, daylight from a small window by the front door, laminate floor. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
