Her Day, Hour by Hour

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Following her through one ordinary day at different hours: an early breakfast, a mid-morning sunbeam nap, a lunchtime walk, watching dinner prep and settling into bed at night.

TIMELINE

0-5s	7am breakfast
5-10s	10am sunbeam nap
10-15s	1pm walk
15-20s	5pm dinner watch
20-25s	10pm bedtime

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. 0-5s (7am breakfast): Kitchen, early morning, cool grey daylight, beige tile floor, coffee maker on the counter. The dog sits beside her steel bowl while the owner's hand pours kibble, then she eats eagerly, her green collar tag tapping the rim of the bowl. Sound: owner says "seven a.m., breakfast time", kibble rattling, crunching. 5-10s (10am sunbeam nap): Living room, mid-morning, a bright patch of sunlight on worn wooden floorboards from a big window. The dog lies stretched out on her side right inside the warm patch of light, eyes closed, her ear twitching as a fly buzzes past. Sound: owner whispers "ten a.m.", quiet house, a buzzing fly. 10-15s (1pm walk): Quiet residential street, early afternoon, bright overcast daylight, sidewalk lined with small trees and parked cars. The dog walks beside the owner's legs on a brown leather leash, stops to sniff a lamppost, then trots on with her tail up. Sound: owner says "one o'clock walk", traffic in the distance, leash jingle. 15-20s (5pm dinner watch): Kitchen, late afternoon light from the window, beige tile floor, a cutting board with sliced cucumber on the counter. The dog sits at the edge of the counter staring up, nose twitching. The owner's hand drops a cucumber slice and she catches it. Sound: knife chopping, owner says "five p.m. supervisor", crunch. 20-25s (10pm bedtime): Bedroom at night, a single bedside lamp on, dark blue duvet, a round dog bed on the rug. The dog turns in a circle twice in her bed and settles down with her chin on the edge. The owner's hand reaches down and strokes her head as she closes her eyes. Sound: owner whispers "ten p.m., goodnight", a soft groan, lamp click.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | 7am breakfast

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. Kitchen, early morning, cool grey daylight, beige tile floor, coffee maker on the counter. The dog sits beside her steel bowl while the owner's hand pours kibble, then she eats eagerly, her green collar tag tapping the rim of the bowl. Sound: owner says "seven a.m., breakfast time", kibble rattling, crunching.

Clip 2 | 5-10s | 10am sunbeam nap

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
