What She Does When I Start Packing a Suitcase

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Five reactions as soon as the suitcase comes out: sniffing it suspiciously, lying inside it, dropping her toy into it, blocking the bedroom doorway and leaning on the owner by the front door.

TIMELINE

0-5s	Suspicious sniff
5-10s	Lies in suitcase
10-15s	Packs her toy
15-20s	Blocks the door
20-25s	Leans by the door

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. 0-5s (Suspicious sniff): Bedroom, morning daylight through white curtains, an open navy suitcase on a beige carpet next to the bed. The dog walks up slowly, sniffs along the zipper and the folded shirts, then looks up at the camera with her ears pulled back a little. Sound: zipper sound, sniffing, owner says "it's just for two days". 5-10s (Lies in suitcase): Same bedroom, morning daylight, the open suitcase on the carpet. The dog steps carefully into the suitcase on top of the folded clothes, turns around once and lies down inside it, taking up the whole space and resting her chin on the edge. Sound: soft rustling clothes, owner laughs "you don't fit". 10-15s (Packs her toy): Bedroom, late morning daylight. The suitcase lies open on the carpet. The dog trots in carrying a worn grey plush rabbit, drops it right into the suitcase on top of the clothes, then sits down right beside it wagging her tail proudly. Sound: soft plop, tags jingling, owner says "oh, you're coming?". 15-20s (Blocks the door): Bedroom doorway, midday daylight from the hallway, wooden floor. The dog lies flat across the doorway, body stretched across the whole opening. The owner's feet step toward her carrying a folded sweater, and she does not move, only lifting her eyes. Sound: owner says "excuse me, please", a soft huff from the dog. 20-25s (Leans by the door): Front hallway, afternoon daylight from a small window, grey tile floor, the closed navy suitcase standing upright by the door. The dog sits right beside the suitcase and leans her whole body against the owner's legs, looking up with soft eyes. Sound: quiet house, owner says softly "I'll be back soon, I promise".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
