What She Does When I Sit on the Floor

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The moment the owner sits on the floor she has a plan: backing into the lap, licking an ear, bringing a toy, resting her head on a knee and rolling over for a belly rub.

TIMELINE

0-5s	Backs into lap
5-10s	Ear lick
10-15s	Brings a toy
15-20s	Head on knee
20-25s	Belly rub request

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. 0-5s (Backs into lap): Living room, morning daylight from a big window, worn brown carpet. The owner sits down cross-legged on the carpet, legs visible from the point of view. The dog walks straight over, turns around and backs her whole body into the owner's lap, sitting on their legs. Sound: owner groans "oof, you're not small", laughing, tags jingling. 5-10s (Ear lick): Bedroom, midday daylight, beige carpet, the owner sitting on the floor leaning against the bed. The camera is held at arm's length. The dog walks up from the side and gives the owner's ear a quick lick, then wags her tail and licks again. Sound: owner laughs "stop, that tickles", wet lick sounds. 10-15s (Brings a toy): Kitchen, afternoon daylight, beige tile floor, the owner sitting on the floor with their back against a cabinet. The dog trots over carrying a knotted orange rope toy, drops it on the owner's knee and takes a step back, staring at the toy. Sound: soft thud of the rope, fridge humming, owner says "one throw". 15-20s (Head on knee): Living room, late afternoon light, grey couch behind, the owner sitting on the carpet with one knee bent. The dog lies down beside them and rests her chin on the owner's knee, eyes half closed, as the owner's hand strokes her ears. Sound: quiet room, slow breathing, a small content groan. 20-25s (Belly rub request): Living room in the evening, ordinary lamp light, brown carpet. The owner sits on the floor. The dog flops down right next to them and rolls onto her back, paws bent in the air, and wiggles until the owner's hand starts rubbing her belly. Sound: rug rustling, owner laughs "of course", happy grunts.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
