What She Does When I Say "Walk"

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Five reactions to the magic word walk: ears up from a deep nap, a sprint to the front door, spinning and whining, a trembling sit by the leash hook and even going out happily in the rain.

TIMELINE

0-5s	Ears up
5-10s	Sprint to door
10-15s	Spins and whines
15-20s	Trembling sit
20-25s	Rainy walk anyway

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. 0-5s (Ears up): Living room, morning daylight, a large tan dog bed by the window. The dog is sleeping on her side. The owner says the word quietly. Her eyes open, both ears shoot up and her head lifts off the bed, staring toward the camera, perfectly still. Sound: quiet room, owner whispers "walk?", tags jingling once. 5-10s (Sprint to door): Long hallway, late morning daylight, laminate floor, front door at the end. The dog sprints down the hallway away from the camera, paws slipping slightly, and stops right at the front door, turning around to look back at the owner. Sound: claws racing on laminate, owner laughs "I only said it once". 10-15s (Spins and whines): Front hallway, midday daylight from a small window, grey tile floor, shoes by the wall. The dog spins in two tight circles and lets out high excited whines, then hops her front paws off the ground slightly while the owner reaches for a jacket. Sound: excited whining, jacket rustling, owner says "yes, really". 15-20s (Trembling sit): Hallway beside a wall hook holding a blue leash, afternoon daylight. The dog sits under the hook, her whole body trembling with excitement, tail sweeping the floor, eyes locked on the owner's hand as it slowly lifts the leash down. Sound: leash clip jingling, tail thumping, owner says "good sit". 20-25s (Rainy walk anyway): Neighborhood sidewalk in light rain, flat grey late afternoon light, wet concrete and puddles. The dog trots happily ahead on the blue leash, tail high, stepping straight through a puddle. Raindrops bead on her black coat as she looks back once. Sound: rain pattering, splashing paws, owner says "you don't care at all, do you".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Ears up

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. Living room, morning daylight, a large tan dog bed by the window. The dog is sleeping on her side. The owner says the word quietly. Her eyes open, both ears shoot up and her head lifts off the bed, staring toward the camera, perfectly still. Sound: quiet room, owner whispers "walk?", tags jingling once.

Clip 2 | 5-10s | Sprint to door

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
