What She Does When I Pick Up Her Brush

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Her five reactions to the grooming brush coming out: hiding behind the couch, coming back for a treat, flopping on her side, rolling onto her back and a big shake when it is over.

TIMELINE

0-5s	Hides and peeks
5-10s	Comes for a treat
10-15s	Flops on side
15-20s	Rolls on back
20-25s	The big shake

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. 0-5s (Hides and peeks): Living room, morning daylight, grey couch pulled slightly away from the wall. The owner's hand holds a wooden slicker brush in the foreground. The dog is lying behind the end of the couch, only her head and ears peeking out, watching the brush. Sound: owner says "I see you", quiet room, a soft huff. 5-10s (Comes for a treat): Same living room, morning daylight, worn brown carpet. The owner crouches holding a small treat in one hand, the brush resting on the floor. The dog walks out slowly, sniffs the brush, takes the treat and sits down beside the owner's knee. Sound: crunch, owner says "see, it's not so bad". 10-15s (Flops on side): Back porch, midday, overcast daylight, wooden boards with loose black fur drifting on them. The owner brushes along the dog's back. The dog slowly lies down and flops onto her side, eyes half closing as the brush moves along her shoulder. Sound: brush strokes, birds, owner says "there it is". 15-20s (Rolls on back): Same back porch, overcast daylight, a growing pile of black fur beside her. The dog rolls onto her back with her paws folded, offering her chest. The owner's hand brushes gently down her chest while her back leg kicks slightly. Sound: soft brushing, a kicking paw tapping the boards, owner laughs. 20-25s (The big shake): Backyard, afternoon, overcast daylight, patchy grass. The dog stands up from the porch, walks onto the grass and shakes her whole body from head to tail, loose black fur flying off in a small cloud, then trots off with her tail up. Sound: collar jingling during the shake, owner says "now I need a brush".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Hides and peeks

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. Living room, morning daylight, grey couch pulled slightly away from the wall. The owner's hand holds a wooden slicker brush in the foreground. The dog is lying behind the end of the couch, only her head and ears peeking out, watching the brush. Sound: owner says "I see you", quiet room, a soft huff.

Clip 2 | 5-10s | Comes for a treat

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
