# Her Reaction to the New Doormat

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

## VIDEO IDEA

A new doormat at the front door is a big deal: careful sniffing, stepping around it, one brave paw, scratching at it and finally claiming it as her new bed.

## MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. 0-5s (Careful sniff): Front porch, morning, overcast daylight, grey painted boards, a brand-new brown coir doormat in front of a white door. The dog approaches with her neck stretched forward, sniffing the edge of the mat carefully, her back legs ready to jump back at any moment. Sound: street sounds, sniffing, owner says "it's just a mat". 5-10s (Steps around it): Same front porch, late morning daylight. The owner opens the front door. Instead of walking across the new mat, the dog walks the long way around it along the porch boards, squeezing past the door frame without touching the mat. Sound: door opening, claws on wood, owner laughs "really?". 10-15s (One brave paw): Front porch, midday, overcast daylight. The dog stands in front of the doormat, slowly lifts one front paw, places it on the mat, pulls it back quickly, then places it again and leaves it there, looking up at the camera. Sound: quiet street, owner whispers "brave girl". 15-20s (Scratches it): Front porch, afternoon daylight. The dog stands on the mat with both front paws and scratches at it quickly as if digging, bits of coir fiber scattering onto the porch boards, then sniffs the spot she scratched with great interest. Sound: scratching on the rough mat, owner says "we just bought that". 20-25s (Claims it): Front porch, early evening, ordinary yellow porch light on, darkening street behind. The dog lies fully on the new doormat, curled up with her chin on her paws, watching the street calmly as if it has always been her spot. Sound: crickets, a car passing, owner says "so it's yours now".

## AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

## CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

## HOW TO MAKE IT LOOK REAL

| | |
|---|---|
| **Use a real photo** | Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips. |
| **Muse AI: one video** | Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts. |
| **Pick the most natural** | Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face. |
| **Keep the real sound** | Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath. |
| **No filters** | Do not add filters, slow motion or fancy transitions - real home videos don't have them. |
