Sleeping In Together on Saturday

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A slow Saturday sleep-in: she lifts her head when no alarm rings, stretches across the bed, rests her chin on the owner, yawns and finally gets up with the owner late in the morning.

TIMELINE

0-5s	No alarm today
5-10s	Big stretch
10-15s	Chin on chest
15-20s	Shared yawn
20-25s	Finally up

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. 0-5s (No alarm today): Bedroom, early morning, dim grey light through closed blinds, a rumpled white duvet. The dog lies at the foot of the bed and lifts her head, ears up, looking toward the owner as if waiting for the usual alarm, then slowly lowers her head again. Sound: quiet room, distant birds, owner mumbles "it's Saturday". 5-10s (Big stretch): Same bedroom, soft grey morning light through the blinds. The dog stretches her front legs out long across the duvet, toes spreading, then rolls onto her side and stretches her back legs too, taking over half the bed with a happy grunt. Sound: duvet rustling, a squeaky dog yawn, owner laughs sleepily. 10-15s (Chin on chest): Bedroom, morning, a little more light through the blinds. Point of view from the owner lying on their back. The dog shuffles up the bed and rests her chin on the owner's chest, looking at the camera with heavy, sleepy eyes. Sound: soft breathing, owner whispers "five more minutes". 15-20s (Shared yawn): Bedroom, mid-morning light filtering through the blinds in stripes across the duvet. The dog lies against the owner's side and lets out a huge yawn with a little squeak at the end, then smacks her lips and closes her eyes again. Sound: squeaky yawn, owner yawns too and laughs. 20-25s (Finally up): Bedroom, late morning, blinds now open, bright overcast daylight. The owner's feet touch the beige carpet beside the bed. The dog hops down from the bed, shakes her whole body and trots toward the bedroom door, looking back with her tail wagging. Sound: bed creaking, collar jingling, owner says "okay, breakfast".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | No alarm today

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
