Her Bedtime Toy Choice

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Every night she picks one toy to sleep with: nosing through the basket, trying the duck, rejecting the ball, picking the worn hedgehog and settling into bed with it under her chin.

TIMELINE

0-5s	Toy basket search
5-10s	Tries the duck
10-15s	Rejects the ball
15-20s	Picks the hedgehog
20-25s	Settles with it

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. 0-5s (Toy basket search): Living room at night, ordinary warm floor lamp light, a round wicker toy basket on the worn brown carpet. The dog pushes her head deep into the basket, nose rummaging through the toys, tail wagging slowly, a rope toy falling out onto the carpet. Sound: toys squeaking softly, basket creaking, owner says "which one tonight?". 5-10s (Tries the duck): Same living room at night, lamp light. The dog pulls out a yellow plush duck, holds it in her mouth for a second, squeaks it once, then drops it back onto the carpet and stares at it as if thinking it over. Sound: one squeak, a soft thump, quiet TV in the background. 10-15s (Rejects the ball): Living room, night, lamp light, carpet scattered with a few toys. The owner's hand rolls a green tennis ball toward her. The dog watches it roll past, does not move, then turns her head away and nudges the basket again. Sound: ball rolling on carpet, owner laughs "not the ball, okay". 15-20s (Picks the hedgehog): Living room at night, warm lamp light. The dog pulls out a worn brown plush hedgehog with one ear missing, holds it gently in her mouth and trots across the carpet toward her dog bed, tail held high and wagging. Sound: soft paws on carpet, tags jingling, owner says "the hedgehog, of course". 20-25s (Settles with it): Bedroom at night, a single bedside lamp, a round grey dog bed on the rug. The dog lies down in the bed with the worn hedgehog tucked under her chin, curls her tail around and closes her eyes. The owner's hand switches off the lamp. Sound: long sigh, lamp click, owner whispers "goodnight, you two".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Toy basket search

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
