Her Favorite Moment of the Day

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Building up to her favorite moment: waiting at the window all afternoon, hearing the car, the full-body greeting at the door, a quick ball toss and leaning on the owner on the couch at night.

TIMELINE

0-5s	Window wait
5-10s	Hears the car
10-15s	Door greeting
15-20s	Quick ball toss
20-25s	Couch lean

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. 0-5s (Window wait): Living room, late afternoon, flat daylight through a big front window, a grey couch pushed against the wall under it. The dog stands with her front paws on the couch cushion, nose close to the window, staring out at the empty driveway. Sound: quiet house, a clock ticking, faint street sounds. 5-10s (Hears the car): Same living room, late afternoon daylight. The dog's ears suddenly shoot up and her body goes stiff, then her tail starts wagging faster and faster as the sound of a car pulls into the driveway outside. She jumps down and runs off. Sound: car engine turning off outside, a car door closing, excited whine. 10-15s (Door greeting): Front hallway, late afternoon daylight from the opening door, grey tile floor. The owner steps in, filming. The dog greets them with her whole body wiggling in a curve, tail going in circles, pressing against the owner's legs and whining happily. Sound: keys, door closing, happy whining, owner says "I missed you too". 15-20s (Quick ball toss): Backyard, early evening, soft dim daylight, patchy grass, wooden fence. The owner's hand throws a worn orange ball across the yard. The dog sprints after it, scoops it up and runs back in a wide happy loop before dropping it at the owner's feet. Sound: birds settling, panting, owner says "one more?". 20-25s (Couch lean): Living room at night, ordinary warm lamp light, grey couch. The owner sits down. The dog climbs up beside them and leans her whole weight against the owner's side, resting her head on their lap and letting out a long, slow sigh as she closes her eyes. Sound: couch creak, long dog sigh, quiet TV, owner whispers "best part of the day".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Window wait

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. Living room, late afternoon, flat daylight through a big front window, a grey couch pushed against the wall under it. The dog stands with her front paws on the couch cushion, nose close to the window, staring out at the empty driveway. Sound: quiet house, a clock ticking, faint street sounds.

Clip 2 | 5-10s | Hears the car

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
