MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. 0-5s (Watering plants): Small front garden, morning, soft overcast daylight, a few potted tomato plants and herbs along a low brick edge. The owner's hand pours water from a green watering can. The dog stands beside the pots, sniffing the wet soil, then licks a drip from a leaf. Sound: water trickling, birds, owner says "you're not helping". 5-10s (Deck lounging): Back deck, late morning, bright sunlight on grey weathered boards, a plastic chair and a potted plant. The dog lies stretched out on her belly on the warm boards, chin flat on the wood, eyes half open, her tail giving one slow wag when the camera comes near. Sound: distant lawn mower, a slow tail thump, buzzing insects. 10-15s (Trash bin duty): Driveway, early afternoon, overcast daylight, cracked concrete. The owner rolls a large grey trash bin down toward the street, only arm and legs visible. The dog walks right alongside the rolling bin, matching its pace, ears up, as if escorting it. Sound: bin wheels rumbling on concrete, birds, owner says "thanks for the help". 15-20s (Grocery inspection): Kitchen, late afternoon daylight, beige tile floor. A brown paper grocery bag sits on the floor with a bunch of celery sticking out. The dog pushes her nose into the top of the bag, sniffs deeply, pulls back and sneezes, then wags. Sound: paper crinkling, a dog sneeze, owner laughs. 20-25s (Rug at night): Living room at night, ordinary lamp light, a faded blue patterned rug in front of a grey couch. The dog lies on her side on the rug, legs stretched out, breathing slowly. The owner's foot in a sock rests gently against her back. Sound: quiet TV, slow breathing, a sleepy groan.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
