MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female solid black German Shepherd with a fully black short coat that looks slightly dusty brown-black on the legs in daylight, amber-brown eyes, upright ears, athletic build, wearing a green nylon collar with a small brass tag, natural coat with a little shedding. 0-5s (Coffee on the step): Front step of a house, early morning, cool grey daylight, a quiet street with parked cars. The owner sits on the concrete step holding a mug, only hands and knees visible. The dog sits beside them and leans against their shoulder, watching the street. Sound: birds, a distant car, owner sips and says "good morning". 5-10s (Rainy walk): Neighborhood sidewalk in light rain, flat grey daylight, wet concrete and fallen leaves. The dog trots ahead on a red leash, her black coat dotted with raindrops, stopping to shake off and look back at the owner with her tail wagging. Sound: rain pattering, splashing paws, owner laughs "we're soaked". 10-15s (Car ride): Back seat of an ordinary car, midday, overcast daylight through the windows, a grey seat cover. The dog sits in a seat harness clipped to the seat belt, looking out of the partly open window, ears blown back a little by the breeze. Sound: engine hum, wind through the window, turn signal ticking. 15-20s (Kitchen floor sit): Kitchen, late afternoon daylight, beige tile floor, the owner sitting on the floor against a cabinet. The dog lies down next to them and puts her head in the owner's lap. The owner's hand slowly strokes her soft black ears. Sound: fridge humming, quiet breathing, owner says softly "thank you". 20-25s (Asleep side by side): Bedroom at night, a single bedside lamp, rumpled dark blue duvet. The dog lies stretched out beside the owner on top of the bed, her back against the owner's arm. Her eyes slowly close as the owner's hand reaches over and switches off the lamp. Sound: soft sigh, lamp click, owner whispers "see you tomorrow".

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
