Our Adventure Begins

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Day one of life on the road: he jumps into the van for the first time, sniffs his new bed, rides harnessed in the back, takes a first roadside sniff and settles by the open side door.

TIMELINE

0-5s	Jumps into van
5-10s	Sniffs new bed
10-15s	Harnessed ride
15-20s	First roadside sniff
20-25s	Rests by door

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. 0-5s (Jumps into van): Gravel driveway in front of a small rented house, cool overcast morning daylight. A sage green camper van with no writing or logos stands with its side door slid open. The dog hops up into the van in one easy jump, turns around inside and looks back out at the camera, tail swishing against the cabinet. Sound: gravel crunching, van floor creaking, owner says "that's our house now". 5-10s (Sniffs new bed): Inside the sage green camper van, soft daylight through small side windows, light wood cabinets and a grey foam dog bed on the floor between the seats. The dog sniffs every corner of the bed carefully, circles twice, presses it with one paw and then lies down with a sigh. Sound: quiet van interior, sniffing, a soft sigh, birds outside. 10-15s (Harnessed ride): Back seat area of the camper van while driving on a quiet country road, overcast light through the windows, green fields passing outside. The dog sits on a padded bench clipped into a seat-belt tether on his grey harness, swaying a little with the curves, ears up, watching the road ahead. Sound: engine hum, road noise, turn signal clicking, owner humming. 15-20s (First roadside sniff): Wide grassy pull-off beside a quiet two-lane road, cloudy midday daylight, wooden fence posts and tall dry grass. The dog on a long leash walks well away from the road, nose down in the grass, then lifts his head into the breeze. The owner's hand in a green rain jacket sleeve holds the leash. Sound: wind in the grass, a distant car passing, leash clip jingling. 20-25s (Rests by door): Same pull-off, late afternoon, soft grey daylight. The sage green camper van is parked on the grass with its side door open. The dog lies on the step of the doorway, front paws hanging over the edge, chin resting on them, watching the empty field while his ears twitch at small sounds. Sound: breeze, crickets starting, owner says "we did it, buddy".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Jumps into van

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. Gravel driveway in front of a small rented house, cool overcast morning daylight. A sage green camper van with no writing or logos stands with its side door slid open. The dog hops up into the van in one easy jump, turns around inside and looks back out at the camera, tail swishing against the cabinet. Sound: gravel crunching, van floor creaking, owner says "that's our house now".

Clip 2 | 5-10s | Sniffs new bed

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
