Van Life Morning Routine

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A normal morning in the van: nose wake-up, a stretch outside, breakfast on the step, a water refill from a jug and a quick brush before hitting the road.

TIMELINE

0-5s	Nose wake-up
5-10s	Big stretch
10-15s	Breakfast on step
15-20s	Water refill
20-25s	Quick brush

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. 0-5s (Nose wake-up): Inside the sage green camper van at dawn, pale blue light through thin curtains, a rumpled grey sleeping bag on the raised bed. Point of view from the bed. The dog stands on the floor and pushes his cold nose into the owner's hand resting on the edge of the mattress, then wags. Sound: quiet morning, sleepy groan, owner whispers "five more minutes". 5-10s (Big stretch): Pine forest campsite just after sunrise, cool soft daylight, pine needles and dirt around the parked sage green camper van with no writing or logos. The dog jumps down from the open side door onto the ground and does a long front stretch, rear end high, then shakes his whole body. Sound: birdsong, collar tags jingling, a big yawn. 10-15s (Breakfast on step): Side door step of the camper van in the pine campsite, morning daylight. A steel bowl sits on the dirt below the step. The owner's hand pours dry kibble from a small bin. The dog sits, waits for a second and then eats, crunching loudly with his head deep in the bowl. Sound: kibble rattling, crunching, owner says "okay, go ahead". 15-20s (Water refill): Same campsite beside the van, clear morning light through pine trees. The owner's hands tip a large blue water jug and pour fresh water into a collapsible silicone bowl on the ground. The dog laps right away, water splashing over the rim onto the dusty dirt. Sound: water glugging from the jug, loud lapping, birds. 20-25s (Quick brush): Sitting on the van step in the pine campsite, bright morning daylight. The owner's hand runs a wide slicker brush down the dog's white back while he stands still, eyes half closed. Loose white fur gathers on the brush and a few tufts float away in the breeze. Sound: brush strokes, soft breeze, owner laughs "where does it all come from?".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Nose wake-up

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. Inside the sage green camper van at dawn, pale blue light through thin curtains, a rumpled grey sleeping bag on the raised bed. Point of view from the bed. The dog stands on the floor and pushes his cold nose into the owner's hand resting on the edge of the mattress, then wags. Sound: quiet morning, sleepy groan, owner whispers "five more minutes".

Clip 2 | 5-10s | Big stretch

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
