Packing the Camper Van

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Loading the van before a big trip: he supervises from the driveway, checks every bin, guards his own food crate, tests the bed and waits by the door ready to go.

TIMELINE

0-5s	Supervising
5-10s	Checks a bin
10-15s	His food crate
15-20s	Tests the bed
20-25s	Ready by door

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. 0-5s (Supervising): Concrete driveway beside a garage, bright overcast daylight. Plastic storage bins and a rolled sleeping pad sit on the ground next to the sage green camper van with no writing or logos. The dog lies on the cool concrete in the middle of it all, head turning to follow the owner's legs walking past. Sound: bins scraping, footsteps, a neighbor's lawnmower far away. 5-10s (Checks a bin): Same driveway, overcast daylight. An open grey storage bin full of folded towels and blankets sits by the van door. The dog walks over, pushes his nose deep into the towels, sniffing loudly, then pulls his head out with a towel half draped over one ear and looks at the camera. Sound: loud sniffing, fabric rustling, owner laughs "inspection done?". 10-15s (His food crate): Garage doorway opening onto the driveway, flat daylight. The owner's hands set down a clear plastic bin of dog kibble beside the van. The dog immediately sits next to it, nose touching the lid, and stays there with his tail sweeping the concrete slowly. Sound: bin thudding down, tail sweeping, owner says "yes, that's yours". 15-20s (Tests the bed): Inside the sage green camper van, daylight through the open side door, half packed shelves and a grey foam dog bed on the floor. The dog steps in, sniffs the new bed, turns in a tight circle and lies down, resting his chin on the edge as if claiming it. Sound: van floor creaking, a soft grunt, outside traffic far away. 20-25s (Ready by door): Driveway in late afternoon, soft cloudy light, the van now packed with the side door open. The dog sits upright on the concrete right beside the door, ears forward, looking from the van to the camera and back, tail tapping the ground. Sound: tail thumping, birds, owner says "almost ready, I promise".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Supervising

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male white German Shepherd with a pure white thick medium-length coat, black nose, dark eyes, upright ears, strong athletic build, wearing a grey adventure harness over a tan leather collar, coat a little dusty from the trail. Concrete driveway beside a garage, bright overcast daylight. Plastic storage bins and a rolled sleeping pad sit on the ground next to the sage green camper van with no writing or logos. The dog lies on the cool concrete in the middle of it all, head turning to follow the owner's legs walking past. Sound: bins scraping, footsteps, a neighbor's lawnmower far away.

Clip 2 | 5-10s | Checks a bin

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
